

About AeroGo, Inc.

Innovative Load Moving Solutions...Since 1967

AeroGo, Inc. is the world leader in engineering, design, manufacture and support of material handling systems utilizing air film technology. AeroGo specializes in the design and manufacture of a wide variety of high-quality, assembly, tooling and material handling equipment and the fabrication of custom-engineered equipment developed specifically to transport and transfer loads from 500 lbs. to over 5,000 tons (226kg to 4535 metric tons).

Based in Tukwila, Washington USA, AeroGo is a privately held American company listed on Dun & Bradstreet and is an equal opportunity employer.

Providing Solutions to Industry, Worldwide

Since 1967, AeroGo has served numerous companies worldwide by providing load moving solutions for industries including aerospace, automotive, cleanroom, defense, die mold, power, entertainment, marine and shipyard, modular home and RV, paper, rail, rigging, and commercial manufacturing.

Engineering Team Solves Load Moving Problems

AeroGo's team of engineers offer a problem-solver mentality and a commitment to continuing research, development and integration of the latest technologies in moving and assembling heavy and cumbersome loads. Besides the most comprehensive line of air caster styles and sizes, technology can include synchronized independent steering, proprietary wheel technology, guidance systems, and controls.

Around-The-Clock Support Network

AeroGo offers a full complement of support, including:

- In-house product specialists ensure rapid response to questions
- Regional Managers provide application analysis and assistance
- Comprehensive worldwide dealer network for local service
- Onsite installation support as required

Operations

Manufacturing facilities at headquarters include the full complement of technicians and equipment to manufacture all AeroGo products:

- Steel and aluminum fabrication
- Mechanical, electrical, pneumatic and hydraulic assembly
- Compliant fluid film and standard product manufacturing
- Shipping and receiving
- Research and development
- Quality assurance and product testing

Quality Manufacturer

Since 1967, AeroGo has been the premiere manufacturer of air caster products. AeroGo manufacturing processes are ISO certified and comply with ISO 9001:2008 quality standards. Aero-Casters are ASME B30.1 compliant.
