API PRO

NEXT GENERATION ASSET RELIABILITY

API PRO is OPTIWARE's out-of-the-box EAM software solution designed to meet the requirements of manufacturing companies operating in an Industry 4.0 reality.

It is the optimal system for ensuring an efficient and digitalized maintenance process, helping companies deliver a consistent product quality and a minimum of down-time.

API PRO is a next generation EAM software solution and it comes with a wide range of built-in features and functionalities, which enable the running of an effective maintenance process.

API PRO is flexible and makes it easy to organize your maintenance management in a way that secures consistent product quality and a minimum of down-time.

Advantages of API PRO
> Better utilization of assets and workforce
> Easy tracking
> Faster reaction to breakdowns
> Less unplanned production stops
> Fast implementation
> Seamless integration with leading ERP-systems

OUT–OF-THE-BOX SYSTEM

FLEXIBLE

FULLY SCALABLE

GRAPHICAL USER INTERFACE

FULL MOBILITY

API PRO
KEY FEATURES

Multiple plants
The API PRO software architecture fully supports organizations with multiple plants and seamlessly handles financial transactions in different currencies, maintenance work in separate time-zones and data in multiple languages.

Mobile maintenance
Mobility being a prerequisite when it comes to efficient asset maintenance - API PRO provides constant access to essential documentation and immediate registration of work done.

Analytics and reporting
The analytics and reporting functionality provides state-of-the-art tools for optimizing asset utilization and securing continuous improvement of maintenance operations. The information needed for decision-making is always readily available - whenever you need it.

Integration to ERP- and technical systems
API PRO is prepared for easy integration with leading ERP systems – as well as for data collection from your equipment.

Fast implementation
Implementation is made quick and easy through a unique combination of an out-of-the-box software solution and many years of experience from successful implementation processes.

API PRO offers all the functionalities of a professional EAM-system, including:
> Maintenance Management
> Material Management
> Service Management
> Document Management

API PRO can be installed on-site or in the Cloud and used as Software-as-a-Service (SaaS).

At OPTIWARE we are ready to help you optimize the performance of your assets with API PRO. For further information please visit our website at www.optiware.com.

" We needed an overall solution to handle the complexity in the production plants and the mutual dependencies between production and maintenance processes "

Bernward Ulm
