

# AXXOS OEE

## OPTIMIZE PRODUCTION EFFICIENCY

**AXXOS OEE is OPTIWARE's state-of-the-art production monitoring solution designed to provide you with the full picture of your production effectiveness - and to help you identify the sources of loss as well as potential for improvements.**

The AXXOS OEE software solution has a strong focus on production monitoring and optimization. It enables you to locate bottlenecks in production, check asset availability and establish OEE value per machine, part or order as well as to find common causes of down-time.

With AXXOS OEE you can keep your equipment efficiency ahead of the game in an Industry 4.0 reality by integrating real-time production information into your present and future digital manufacturing environment.

### Advantages of AXXOS OEE

- Get full control of your production
- Improve productivity
- Create awareness through visualization
- Follow-up on production with minimal efforts
- Get the facts for decision-making and improvements
- Increase and secure output and quality

**TURN-KEY SOLUTION**

**IMPROVEMENT FOCUS**

**REAL-TIME VISUALIZATION**

**FULL MOBILITY**

**FULLY SCALABLE**

# AXXOS OEE KEY FEATURES

## Visualization

AXXOS OEE gives you the production status in real-time - on large displays in the factory, at workstations and in mobile devices, so that your organization is always up-to-date with factory performance and able to turn focus to value adding improvement work.

## Analysis and reports

Our solution provides powerful and easy-to-use tools for analysis of production information. With only a few clicks you can summarize or dig into information covering your entire production - be it on factory, department, machine, order or part level. AXXOS OEE supplies your organization with timely and relevant information for decision-making on both improvements and investments.

## Follow-up

Data is gathered automatically from your machines and operators can easily add details about reasons for disturbances - with just one single click. The effort and time saved can instead be directed towards operating multiple machines or further improvements on operational effectiveness.

## Quick Return on Investment

With its competitive pricing, low operational cost and overall impact on efficiency, the AXXOS OEE turn-key solution will present a short pay-back period on your investment. And due to a streamlined installation process and standardized solutions for connecting your equipment - you will quickly be able to reap the benefits.

With AXXOS OEE you build the natural foundation for an efficient production process, including:

- > Full Control
- > Productivity Improvements
- > Full Mobility

AXXOS OEE can be installed on-site or in the Cloud and used as Software-as-a-Service (SaaS).

At OPTIWARE we are ready to help you increase the efficiency and productivity of your assets with AXXOS OEE.
