

Well Connected. Worldwide.

We Offer Transformer Component Suppliers:

- Listing in a unique categorized business directory where transformer manufacturers can find component suppliers
- Access to a directory with transformer factories worldwide
- Target marketing to more than 300 transformer factories
- Visibility on The Transformer Marketplace

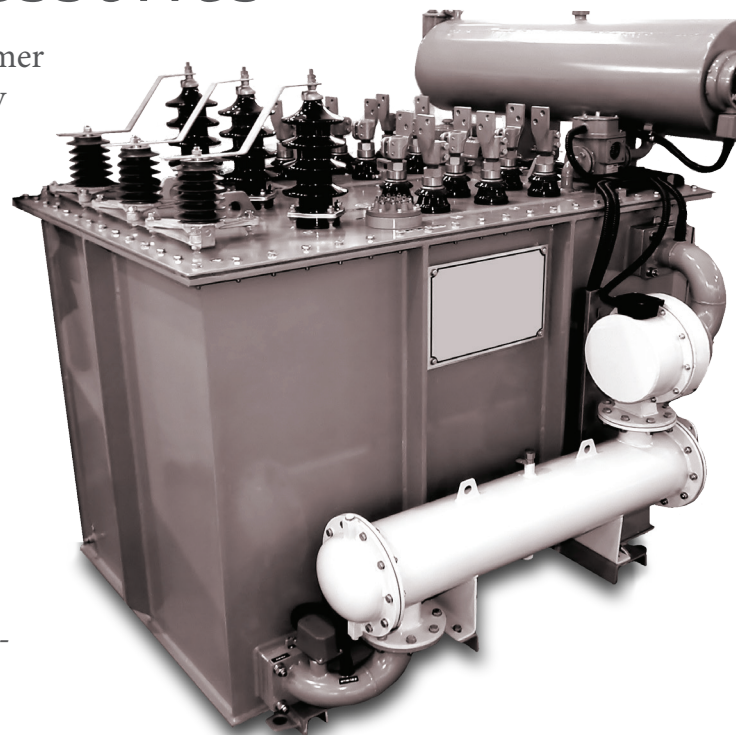

Components & Accessories

BTB Plaza provides an unique tool where transformer manufacturers can search in a categorized directory for transformer component suppliers.

Currently we have more than 300 transformer factories worldwide in our network. These factories are your potential component customers.

BTB is also offering access to a tool where component suppliers can find transformer factories worldwide.

The directory is an excellent sales channel for transformer component suppliers to promote themselves to transformer manufacturers.

Component Supplier Directory

BTB Plaza maintains an unique tool where transformer manufacturers can search a categorized directory for finding transformer component suppliers worldwide. Currently we have more than 300 transformer factories worldwide in our network.

The main categories are:

1. Core
2. Windings
3. Insulating Material
4. Tap Changers
5. Transformer Tanks & Enclosures
6. Cooling Equipment
7. Bushings & Terminals
8. Monitoring & Protective Equipment
9. Accessories & Misc.

The main categories are divided into several sub categories. The directory is under continuous development and new categories will be published.

We are continuously gathering information about companies offering products and services that are relevant for the transformer industry such as winding machines, test equipments, maintenance etc. Our target is to include those products and services in the directory.

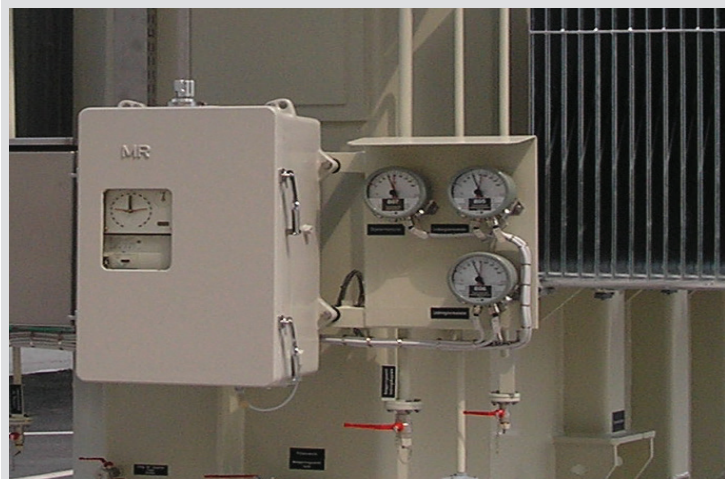

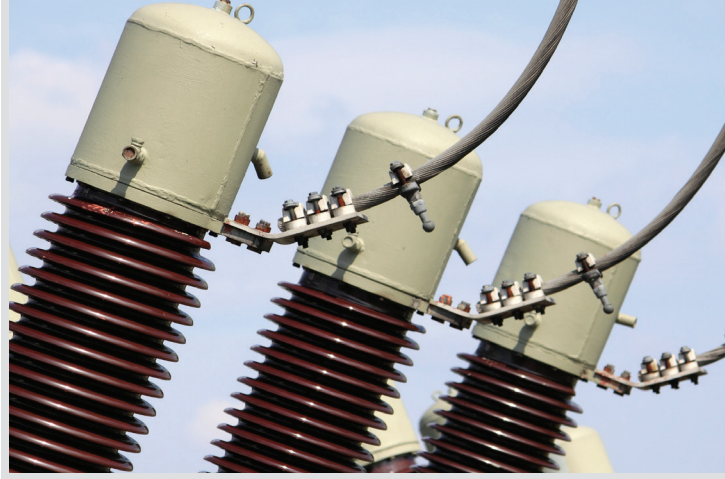

Target Marketing

We offer component suppliers great visibility on The Transformer Marketplace. We send out newsletters with latest product news from the component market to transformer manufacturers.

Upon request BTB Plaza can help customers to source for components and spare parts.

Transformer Factory Directory

BTB also offers access to a tool where component suppliers can find transformer factories worldwide. You can search for transformer factories using certain technical parameters such as transformer concept, application, rated power, voltage ratio and/or geographical location. We can most often offer contact details directly to purchase departments.

BTB Plaza has served as the marketplace for transformers since 2004. Our Finnish entrepreneur-driven company is known for its speed, flexibility and reliability.
