INTEGRATING CUSTOMER MACHINE CONTROLLER REQUIREMENTS INTO ONE PROVEN, VALUE ADDING PORTFOLIO

CMC PROVIDES THE COMPLETE, SINGLE SOURCE SOLUTION

Headquartered in Belgium where we carry out all research and development, hardware and software design and development engineering as well as extensive serial production, CMC is the supplier of choice for your industrial machine controller requirements.

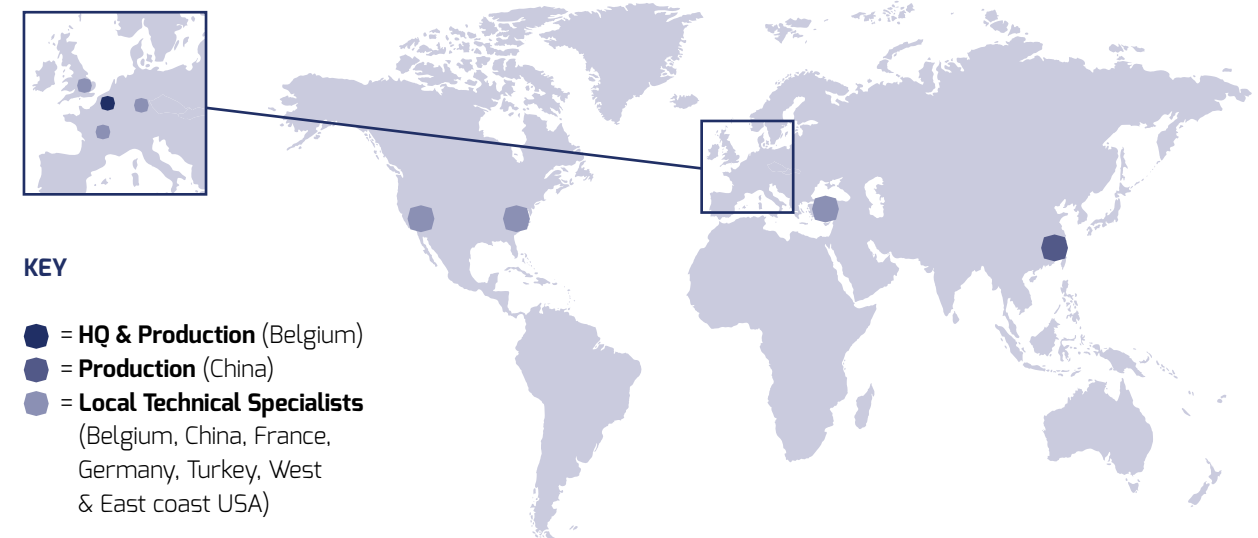

ADDING VALUE AT THE LOWEST POSSIBLE COST

Founded in 1985, CMC employs a team of dedicated, forward thinking, highly motivated engineers, technical specialists and business professionals that deliver quality bespoke machine controllers and software alongside a service that is simply unsurpassed.

Our success has been built upon a unique ability to carefully integrate the machine control design, component sourcing,

hardware and software design and development, manufacturing, assembly and testing requirements into one proven, value adding portfolio of products.

Our global credentials are supported by additional production facilities in China and technical resource located in Belgium, China, France, Germany, Turkey, the UK and both East and West Coast USA.

THE COMPLETE END TO END SERVICE

DESIGN AND DEVELOPMENT

CMC is uniquely positioned to provide the complete service. Where required, this service can encompass co-design and engineering of finished products, component definition, material specification, printed circuit board design, mechanical and package design, hardware and software engineering, prototyping and finally serial production engineering.

Our extensive and constantly evolving in-house hardware

and software library offers a ready developed solution to many customer requirements or can be further developed to satisfy specific needs.

COMPONENT PROCUREMENT

Our EU and ASIA procurement teams globally source quality electronic components and mechanical parts for the lowest possible price. Furthermore, we interrogate our sophisticated purchasing system to focus on suppliers whose lead times

and flexibility are aligned with customer requirements.

ASSEMBLY AND TEST

CMC specialises in small to medium volume controller manufacture at both our EU and Asia production locations. Our commitment to quality is underpinned with lean manufacturing processes, stringent quality controls, ISO accreditation as well as dedicated resource that persistently focus on quality and continuous improvement.
