YOUR PROFESSIONAL PARTNER FOR  
**CABLES & WIRES**

## WE ARE CONCAB.

For the past 30 years ConCab has supplied customers and distributors worldwide, primarily for the machine building industry, automation, electrical engineering and electronics industry.

Our corporate mission is to build and maintain long lasting partnerships with our customers – for mutual benefits.

We dedicate ourselves to respond quick and flexible to our customer's needs and to meet and exceed all expectations in terms of product and service quality.

As a manufacturer – certified by DIN ISO 9001 – we guarantee a consistently high quality of our products.

*„Excellent products and close cooperation between our staff and you, our business partners, build the foundation for success. This has been the main focus of our business policy ever since my father established this company. To strengthen our customer relationships for mutual benefits, this is what I stand for.“*

Sabine Pichler, Managing Director ConCab kabel gmbh

## Individual Customer Service

Our experienced sales representatives are always there to discuss your individual requirements. Use our comprehensive product catalog. If special requirements are needed our development team is at your side to create your individual, tailor-made cable.

## Shipping Service

In-stock articles are generally shipped at the same day – so orders within Germany are delivered the following day. Even for international shipments we offer short lead times. Value-added service: We also cut, pack and ship short and custom lengths without delay.

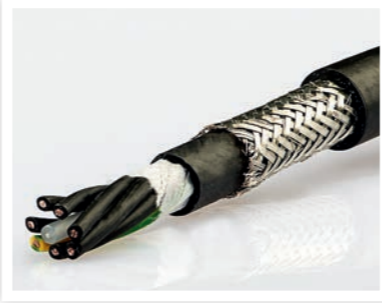

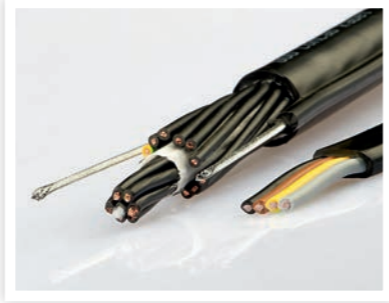

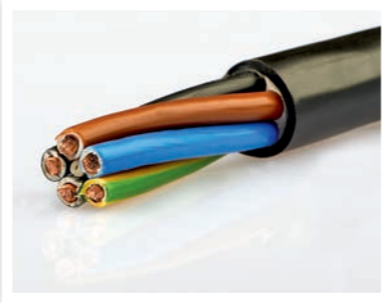

## One-Year Call-Off Orders

When you place a call-off order we lock in current prices and keep your products in stock for an entire year. Within the next 12 months you release your goods as and when required.

## OUR SERVICE

### Reliability

ConCab stands for continuous quality, in terms of service and products. Longterm customer loyalty is the best evidence of ConCab's excellent product quality and customer service. We keep our word!

# THAT IS IMPORTANT TO US.

## Customer Satisfaction

We aspire to grow the base of our enthusiastic and loyal customers. In order to reach this goal each employee is committed to consistent customer relationship management and customer focus.

## Employee Satisfaction

Our employees are our greatest asset. We fully embrace our social responsibility towards our staff. The results are loyal, well established and dedicated employees.

## Developing Young Professionals / Social Commitment / Sponsoring

We invest in our company's future. Every year we educate trainees in various fields, providing them great opportunities for career growth and professional development.

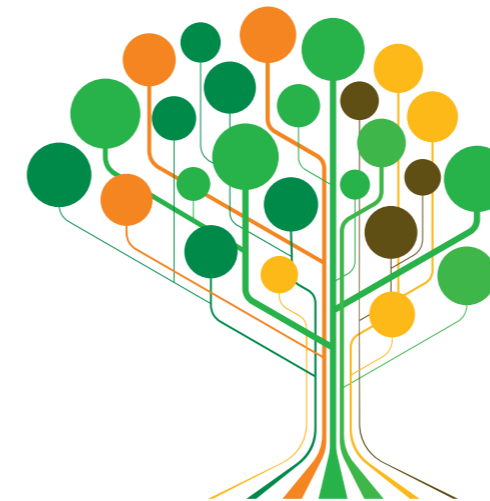

Every year we sponsor charitable and cultural projects and organizations in the region. Our staff is actively involved in selecting the charities.

## Brand Philosophy

Reliability, endurance and flexibility are the main features of our products. We think long-term constant product quality, is an essential requirement for positive branding. This is what our customers can rely on. We ensure high quality by means of our own product development, long-lasting agreements with manufacturing plants in Europe (mainly in Germany and Italy), in-house quality assurance and regular review with our manufacturing partners.

Periodic workshops with our suppliers ensure that our products are always state-of-the-art and comply with all regulatory and environmental requirements.

## Environmental policy and use of natural resources

By involving our suppliers in our environmental policy we are reducing our impact on the environment. Our good relationships with our suppliers are reflected by their willingness to participate, for example in waste management planning.
