

IN THE LINE OF POWER

Solutions Integrated
Distribution- and House-Service-Systems

Safe and shapely solutions

EFEN, your specialist for safety interfaces, has extended its range of solutions for power distribution networks. Our shapely distribution cabinets and state-of-the-art domestic supply technology represent a safety system already designed for tomorrow's requirements, all from a single source.

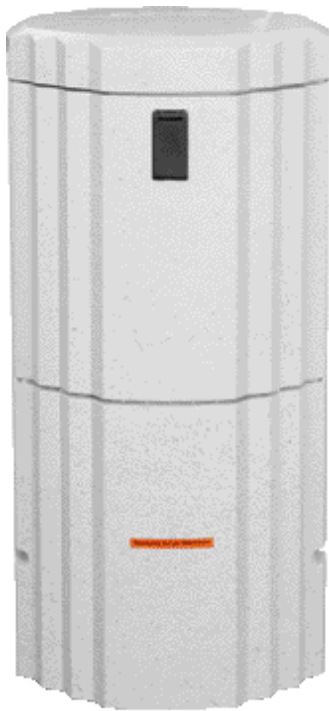

Distribution cabinets and pillars

EFEN's modular standardized distribution cabinets and pillars can be extended to meet your individual demands – now and in the future. Smart solutions for smart-grid applications will soon be available.

Profiled housing surfaces prevent the application of posters, highly effective anti-graffiti coating is available as an option.

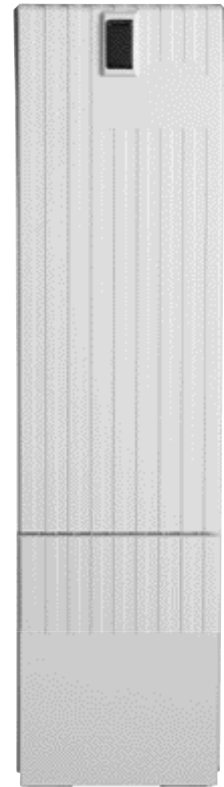

House service systems

EFEN's visually appealing service boxes are the perfect solution for safe outdoor connections. The housings made of glass-fiber reinforced plastic resist UV radiation and other environmental effects.

Layout and assembly of the distribution pillars comply with the technical connection specifications of the respective utility provider. The pillars' design anticipates future extensions for smart-grid applications. Conclusion: Safe and reliable solutions from a single source.

Home service boxes

EFEN's home service boxes represent the interface to the consumer acc. to DIN 43627. The boxes can be fitted with safety systems in accordance with the utility provider's specifications.

Fairground and market place distribution systems

Distribution cabinets and pillars from EFEN are a great asset for any event location. The units are available for fixed installation or as mobile variants and can be configured individually thanks to their modular design.

IN THE LINE OF POWER

Effizient verteilen

Die Energiewende stellt eine der größten Herausforderungen an eine sichere Energieversorgung dar. EFEN bietet hierzu durchgängige Lösungen für Sicherheits-Schnittstellen von der Erzeugung über die Speicherung bis hin zur gezielten Steuerung der Verbraucher.

Sicher schützen

Zuverlässiger Schutz von Menschen und Investitionen zählt zu den wichtigsten Aufgabenstellungen in Energie-Verteil-Anlagen. Umfassende Lösungen von EFEN bieten höchste Sicherheit in allen Bereichen der Energieversorgung, Infrastruktur und Industrie.

Intelligent steuern

Mehr Energieeffizienz reduziert Spitzenlasten und Energiekosten. Frühwarn-Systeme minimieren ungeplante Anlagenstillstände. Intelligente Lösungen von EFEN sorgen für sichere Kommunikation und maximierte Verfügbarkeit von Energie-Verteil-Anlagen.
