## ///// Tornado WP 3325 B 3 – 5 BasBooster<sup>R</sup> incl. N<sub>2</sub>-Pack

3-stage, air-cooled, direct drive Media: Air & Nitrogen

- Direct suction intake between 3–5 bar (g)
- Crankcase ventilation back to 1st stage
- Simultaneous supervision of feed pressure, suction pressure and discharge pressure for safe operation
- Total compression divided into 3 separate stages improved cylinder cooling, lower oil usage
- Reduced maintenance 2,500 hours service intervalls
- Complete compressor check at final pressure including
  3.1 inspection certificate
- Long operating life with guaranteed availability (minimum 25 years) of replacement parts ex stock
- Trouble-free operation, even under the most extreme conditions (55°C ambient temperature)

- Sauer offers the very latest compressors, control systems, compressed-air treatment systems and accessories
- Optimum customer services starting with the initial enquiry and extending over the entire life of the product
- Customized solutions produced in accordance with customers' specifications
- Customer-specific documentation and calculation
- Individual, customer-oriented service plans
