DESIGN

50 YEARS PATENT

The Best. Reinvented.

With the cable knife System 4-70 a new era begins. More safety, more comfort, more flexibility – the new generation of the cable stripper comes with many top features. Find out more about it!

➤ New Type of Bracket Change System

More flexibility: From 4 to 70 mm Ø – whatever the cable size. The new JOKARI is the perfect tool for you – thanks to the bracket change with a single click. To change the bracket simply release a clip in the push opening and slide it out. Swapping to a new bracket will allow you to use one tool to strip any cable from 4-70 mm Ø.

LOOK

➤ Visible Round Cut

More comfort: An exact round cut – an essential criterion for the following steps. Through a window in the metal bracket the user can see at once whether the cutting is good.

PUSH

➤ Automatic Blade Protection

More safety: The hooked blade is only exposed when pushed against the wire insulation. The blade guard automatically springs back over the blade to prevent any accidental injuries. Perfect protection for everyday routine work.

BE SAFE

➤ Safe Locking Switch

More work protection: The locking switch activates the use of the hook blade. When the switch is at the open lock icon, the blade guard can be lowered into the handle; otherwise the blade guard is blocked. After lowering the blade guard into the handle, the locking switch automatically adopts stand-by mode, from which it instantly covers the hook blade should the tool slip off the cable. The blade cannot be reactivated unless the lock is released.

ON

SAFETY

Cut injuries are a thing of the past with the newly developed protection mechanism. This precision tool is your safe companion in all work situations.

MODULAR SYSTEM

Thanks to the intelligent bracket change system, all common cable types, from 4 to 70 mm diameter, can be stripped with just one tool. One for all – there's nothing better.

DESIGN

The cutting can be monitored instantly through the unique a sight window in the metal bracket. The perfect ergonomic design of the new JOKARI ensures comfortable handling.

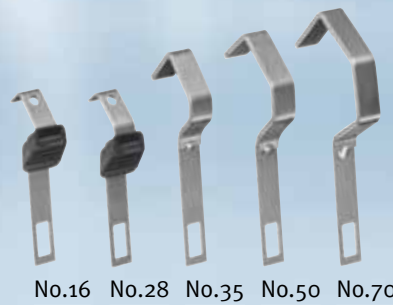

50 YEARS PATENT

Five decades of years after the granting of a patent for the cable knife, JOKARI now launches the 4-70 system. Developed from practice for use in practice. Branded quality at its best.
