

Advantages at a glance

- Automatic absolute calculation of robotic tools and fixtures
- Auto-commissioning and ease of use
- Simplified Integration in the production line due to small footprint
- Robust sensor available in two sizes
- Multi-sensor-system (connection of additional sensors possible)
- Connection of the calibration system to the robot controller, i.e. the calibration procedure takes place in an evaluation unit and transfers correction values to robot controller
- High process reliability
- No additional PC's required
- Logging of calibration data
- Data evaluation possible at any time
- Automatic correction of the trajectory

due to wear and tear or tool-replacement

- 100 % quality assurance
- Reduction of costs
- Prevents the production of defective parts
- Reduces scrap and rework
- Short setup times

The Quality Connection

At a glance advintec TCP robotic tool and fixture calibration systems

The challenge

Continually securing the correct operating position for robotic tools

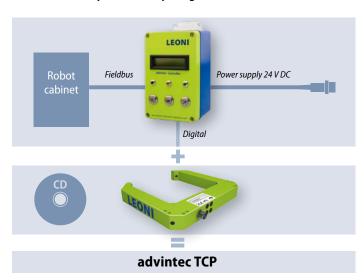

The solution

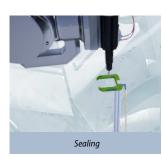

The advintec TCP tool calibration system calibrates the tool and fixture in up to six dimensions in the ongoing production process

- Three translatory and three rotatory dimensions
- Electronic, precise and fast

The trajectory is automatically corrected by the measured variations and ensures that the tool always operates at the correct position.

Our calibration system – everything from one source

	3D	5D	6D
Calibration time	3 sec. complete	9 sec. complete	15 sec. complete
	2D calibration	5D calibration	6D calibration
	6 sec. complete		
	3D calibration		
Dimensions	2 or 3 translations	5 (3 translations, 2 rotations)	6 (3 translations, 3 rotations)
Fields of application	Arc welding, stud welding, spot welding, laser welding,		Gripper calibration,
(applicable for all robot brands)	tig welding, gluing, milling		fixture calibration, power train
			applications, high precision
			applications

Technical data at 20 °C / 24 V DC		
Sensor type	2 channel infrared 880 nm, pulsed at 2kHz	
Interface	Serial or field bus (DeviceNet, Profibus, Profinet, Interbus etc.)	
Measuring accuracy	0.02 mm	
Protection class	IP67	
Dirty surroundings	Yes	
Casing	Aluminium	
Automatic correction	Yes	
of tool data		
CE mark	Yes	
Operating voltage,	10 – 34 V DC,	
Connections	IBS connector, 5 pin, PE advance conn.
