

Our goal is to create a network of a million manufacturing companies, worldwide.

EMIDAS Membership Service.

EMIDAS Membership Service of NC Network is committed to supporting manufacturers' challenges, worldwide. It operates the portal-site, **EMIDAS**, and provides our member companies with web pages to introduce company information and their technologies. Furthermore, we undertake various business projects such as factory tours in order to study new technologies, co-exhibition support at manufacturer fairs, web-marketing services, design and production of public relation resources, and more.

Sales and Engineering Service.

The Sales and Engineering Service of NC Network takes a role as trading firm, taking advantage of the broad range of 1800 companies in the Emidas network, to provide large enterprise manufactures with prototype products and/or mass-produced products. We are expeditiously able to supply customers' most needed parts. Currently we are dealing with top Japanese automotive and electric companies.

IN Vietnam NCVN JSC

NC Network Vietnam (NCVN JSC)

Vietnam benefits from an energetic economy that is developing at a very fast pace. In 2010, NC Network founded a subsidiary company, NC Vietnam, in Hanoi, to expand its manufacturer's network to South Asia. NC Vietnam provides consultation for Japanese manufacturers who are interested in doing business in, or procuring products from Vietnam.

In the U.S.A. NC Network, Inc.

In 2012, NC Network America (NC Network, Inc.)

starting doing business in the U.S.A., California & Ohio states. The U.S.A. which has the largest economy, worldwide; its consuming power is tremendous. In the U.S., NC America supports Japanese manufacturers as a manufacturing research consultant.

NO.1 Factory Search

Manufacturing Order Site

<http://en.nc-net.com/>

NC Network Co., Ltd. hosts a business matching web site for manufacturing industries called Emidas(Engineering Manufacturing Industrial Database Access) which began its service in 1998 and has helped many manufacturing industry professionals to network with each other.

Emidas is a place where high tech design development and sales staff can get in touch with peer staff from other factories.

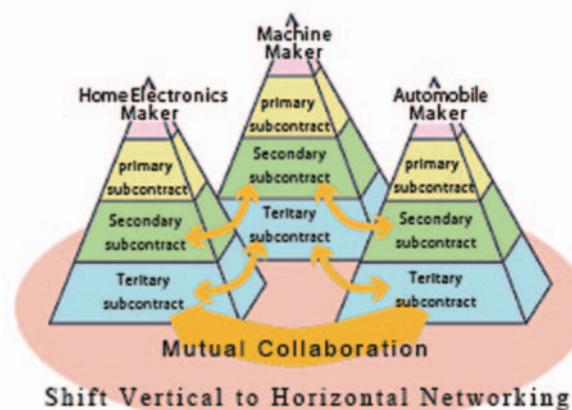

In the past, Emidas offered its service to Japan, China, and Vietnam, only; however, in 2011, we upgraded our website to support English, German, Chinese, Korean, Thai and Vietnamese, allowing people, who belong to manufacturing industries around the world, to participate.

At Emidas, we convert niche information such as technology, quality, equipment, trust, etc. and transmit it to people in the manufacturing fields, in addition to increasing opportunities for business around the world.

The "Emidas" Vision

In the old days, factories on the bottom of the business pyramid and the makers on top looked to the top of their own pyramid for order receipt. However, most small and medium-sized factories started to notice the world outside their own pyramids and sought to interact with each other. The makers also became interested in business with other small and medium-sized factories in order to improve product, or create new ones.

At NC Network, we believe in the idea of using the internet as an effective tool for sharing information; we hope to create a social network where small and medium-sized companies can socialize with each other outside of their own pyramid. Each company gains strength as to its manufactured products, technologies and/or techniques by social networking. Once stable, this small to medium social network acts as a virtual factory. We are working hard to achieve this dream.

Why "EMIDAS"?

NC network offers data on various perspectives challenging manufacturers!

What our company pages include:

"Basic Info"

Industry, detailed manufacturing categories, phone number, mailing address, capital, number of employees, annual sales, etc.

"Equipment"

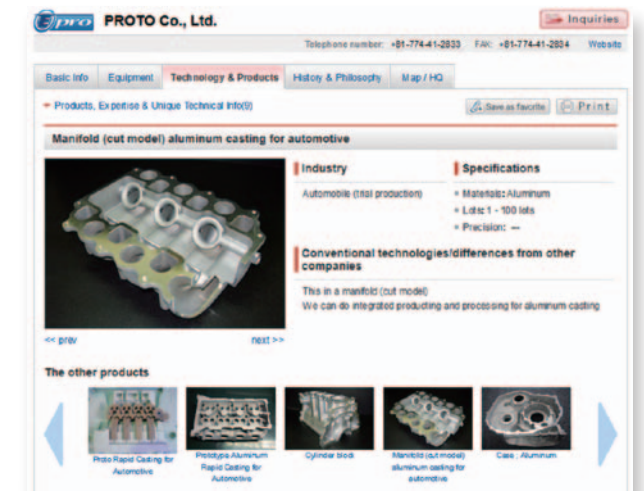

Machine Tools, Acceptable CAD format, CAD/CAM software used, etc.

"Technology & Product"

Photos & detailed info of a company's technologies and products (material, precision scale, lot, etc.)

"Movie"

NC network produces promotional videos for our member companies. These videos are enhanced records of their manufacturing plants, processes, and technologies.
