

Ouneva Group

Ouneva Group is a Finnish family enterprise founded in 1972 which has become a strong international system supplier thanks to a high demand for their electric components.

The product quality and the fundamental R&D work makes Ouneva Group an interesting partner while searching for new solutions. By answering the demand and the needs of the customers Ouneva Group has grown into a strong group of four units which complement each other: Alsisva Oy, Eswire Oü, Jotwire Oy and Ouneva Oy.

ALSIVA OY

- Aluminium and zinc die casting
- Plastic injection moulding

ESWIRE OÜ

- Manufacturing of wiring harnesses and electro-mechanical assemblies

JOTWIRE OY

- Manufacturing of wiring and cable harnesses, electronics and system assemblies

OUNEVA OY

- Manufacturing of connection components
- Sheet metal work and surface treatment

System Supplier and Partner in R&D

The Ouneva Group combines the production technologies and assembly know-how of four units which are focused on their own technologies. The group's units supply components, assemblies and systems to several industries all over the world. Ouneva's connection components are also widely used in the electrical industry and are present in wholesalers' portfolios. The production units are located in Eastern Finland and Estonia.

R&D Partner

When standard components are not a solution, Ouneva Group is your R&D partner. The success of our products is based on our know-how. This is what we offer to our customers as design and engineering services.

We offer the entire process from the customer's idea to a tested product with the same quality and efficiency as we manufacture our own products. Product design, documentation, designing the manufacturability (DFM), test design and manufacturing are all done with experience and proper methods. Meaningful enclosure solutions and a premium surface treatment finish the high-quality result.

System Supplier

We always plan our system deliveries with a customer focus. Thanks to our project management network, it is possible for our customers to take advantage of the know-how of the entire Ouneva Group through their appointed contact person.

Our efficient and flexible production processes secure our performance as a competitive supplier. Our own part production and a complete supplier network ensure the overall efficiency.

Our experience with demanding assemblies as well as our modern facilities give us the ability to manufacture extensive systems and large production volumes in a cost-efficient manner.
