

PRESSURE CONTROL VALVES

Our offer includes a wide choice of pressure control valves, performing various functions in hydraulic systems. We offer different types of valves: pressure relief valves, reduction valves, pressure sequence and counterbalance valves.

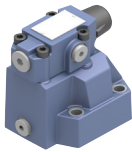

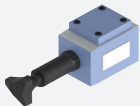

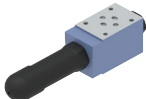

The devices have various types of connections, pressure and flow ranges and different types of setting up elements: a rotary knob, adjustment screw or a knob with a key lock. There are also available versions compliant with the Pressure Directive requirements.

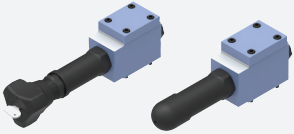

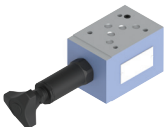

PRESSURE RELIEF VALVES

	group	NS	P_{max} [MPa]	Q_{max} [dm ³ /min]	type
	subplate/threaded/cartridge valves	10, 20, 30	35	650	DB (DBW)
	sandwich type valves	6,10	10-35	60-100	UZPR
	threaded valves	10, 20, 30	10	300	UDZB

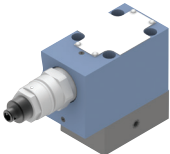

PRESSURE REDUCING VALVES

	group	NS	P_{max} [MPa]	Q_{max} [dm ³ /min]	type
	subplate/threaded/cartridge valves	10, 20, 30	31,5	400	DR
	subplate valves	5-10	21-35	15-80	DR5DP, UZRB, UZCP10
	sandwich type valves	6-10	21-31,5	30-54	UZRC, UZRR6, UZCR

PRESSURE SEQUENCE VALVES

group	NS	P_{max} [MPa]	Q_{max} [dm ³ /min]	type
 subplate/threaded/cartridge valves	10, 20, 30	31,5	450	UZK
 subplate valves	5-6	21	15-30	DZ5DP, UZKB6
 sandwich type valves	6-10	21-31,5	30-54	UZKC, UZKD6

UNLOADING VALVES

group	NS	P_{max} [MPa]	Q_{max} [dm ³ /min]	type
 subplate/threaded/cartridge valves	6-30	31,5-35	60-400	UZOP, UZOP... NHY

COUNTERBALANCE VALVES

group	NS	P_{max} [MPa]	Q_{max} [dm ³ /min]	type
 threaded valves	6	35	60	UZPHE6, 2UZPHE6
