

RICERCA CHIMICA GROUP brings more than 25 years of experience as manufacturer of **CHEMICAL PRODUCTS, EQUIPMENTS and PLANTS** for metal surface treatment, especially on **STAINLESS STEEL**, in line with environmental standards, is pleased to announce the launch of the New Concept for Maintenance on STAINLESS STEEL

It is a special KIT for instantaneous removal of corrosion on stainless steel, and also for corrosion prevention!
Products are classified as not dangerous for the operator and they do not need water for rinsing!

The KIT with "Special Technical Towels" is **UNIQUE IN THE WORLD**, covering the **COMPLETE CYCLE** for Stainless Steel Treatment:

- Instantaneous removal of corrosion on stainless steel
- It preserves the quality of stainless steel over the time
- It prevents corrosion
- It includes not dangerous chemicals for the operator
- It does not need water for rinsing
- Increasing of Corrosion Resistance thanks to Passivation (Test ASTM B 117)

Applications: Railings, Tanks, Boats, Kitchens, Swimming Pools, Trains, Subways, Lifts, Ports, etc..

Please, check the simplicity of application on the VIDEO to the following link:

<http://www.canaleinox.com/2014/07/kit-tecno-inox-full-cycle-maintenance-en/>

TECNO KIT INOX can be dispatched worldwide even by airplane since it is not dangerous.
