Electric Power Distribution Products

a company of

Green Generation Smart Distribution

About us

Tozzi Electrical Equipment

For over 50 years, Tozzi Electrical Equipment, a company of Tozzi Green group, has been designing, manufacturing and selling medium and low voltage electric power distribution products, switchboards, and prefabricated mobile substation with innovative solutions and sustainable techniques. Thanks to the high expertise of its internal R&D department and the standardized modular platform, Tozzi Electrical Equipment guarantees reliability, safety and Made in Italy quality.

Tozzi Green

Tozzi Green is a company specialized in solutions, services and projects for the development of plants and the generation of energy from renewable resources. Tozzi Green operates in the energy sector as EPC and O&M contractor for renewable energy production plants: hydroelectric, maxi wind, photovoltaic, biomass and biogas facilities.

As one of the most important European producers of small wind turbines, **Tozzi Green** is also interested in energy storage systems. Tozzi Green has a manufacturing plant and a number of top-flight research and development laboratories.
