

# EFFECTIVE AND EFFICIENT PRODUCT PROCUREMENT

**Look** for economical purchasing possibilities for your products and selected production technologies.

**Cooperate** with competent production sites where quality management and processes are audited permanently.

**Purchase** high quality products according to your demands and requirements.

**Use** the service of warehousing to avoid bottleneck situations and to receive deliveries just-in-time.

**Save** time and resources by cooperating with a professional, reliable, and experienced partner.

**Trust** in USD's full procurement service, as quality, in-time-deliveries, and technical know-how come first.

RELY ON USD AND MORE THAN 30 YEARS OF EXPERIENCE

# OUR TEAM AND OUR PHILOSOPHY

Professional companies are charged with highly effective procurement by using core competencies of world-wide acting enterprises.

That is why we consequently offer a complete procurement service to our clients since 1977.

As a global-acting component-supplier of investment castings, forgings, sand and die castings, sintering and stamping parts, we represent, today and in the future, the advantages of international procurement of metal parts.

With over 30 years of experience, our new established business premises with a large warehouse, an own quality assurance department and a modern quality management according to EN ISO 9001:2000 we present ourselves as a competent and reliable partner who stands for the high German standard.

This means as well that USD takes over the full responsibility for quality, price and delivery time. Everything is in accordance with our own philosophy to be: "The Global Metal Parts Partner"
