

**Intelligent signal technology –
for the world of today
and tomorrow**

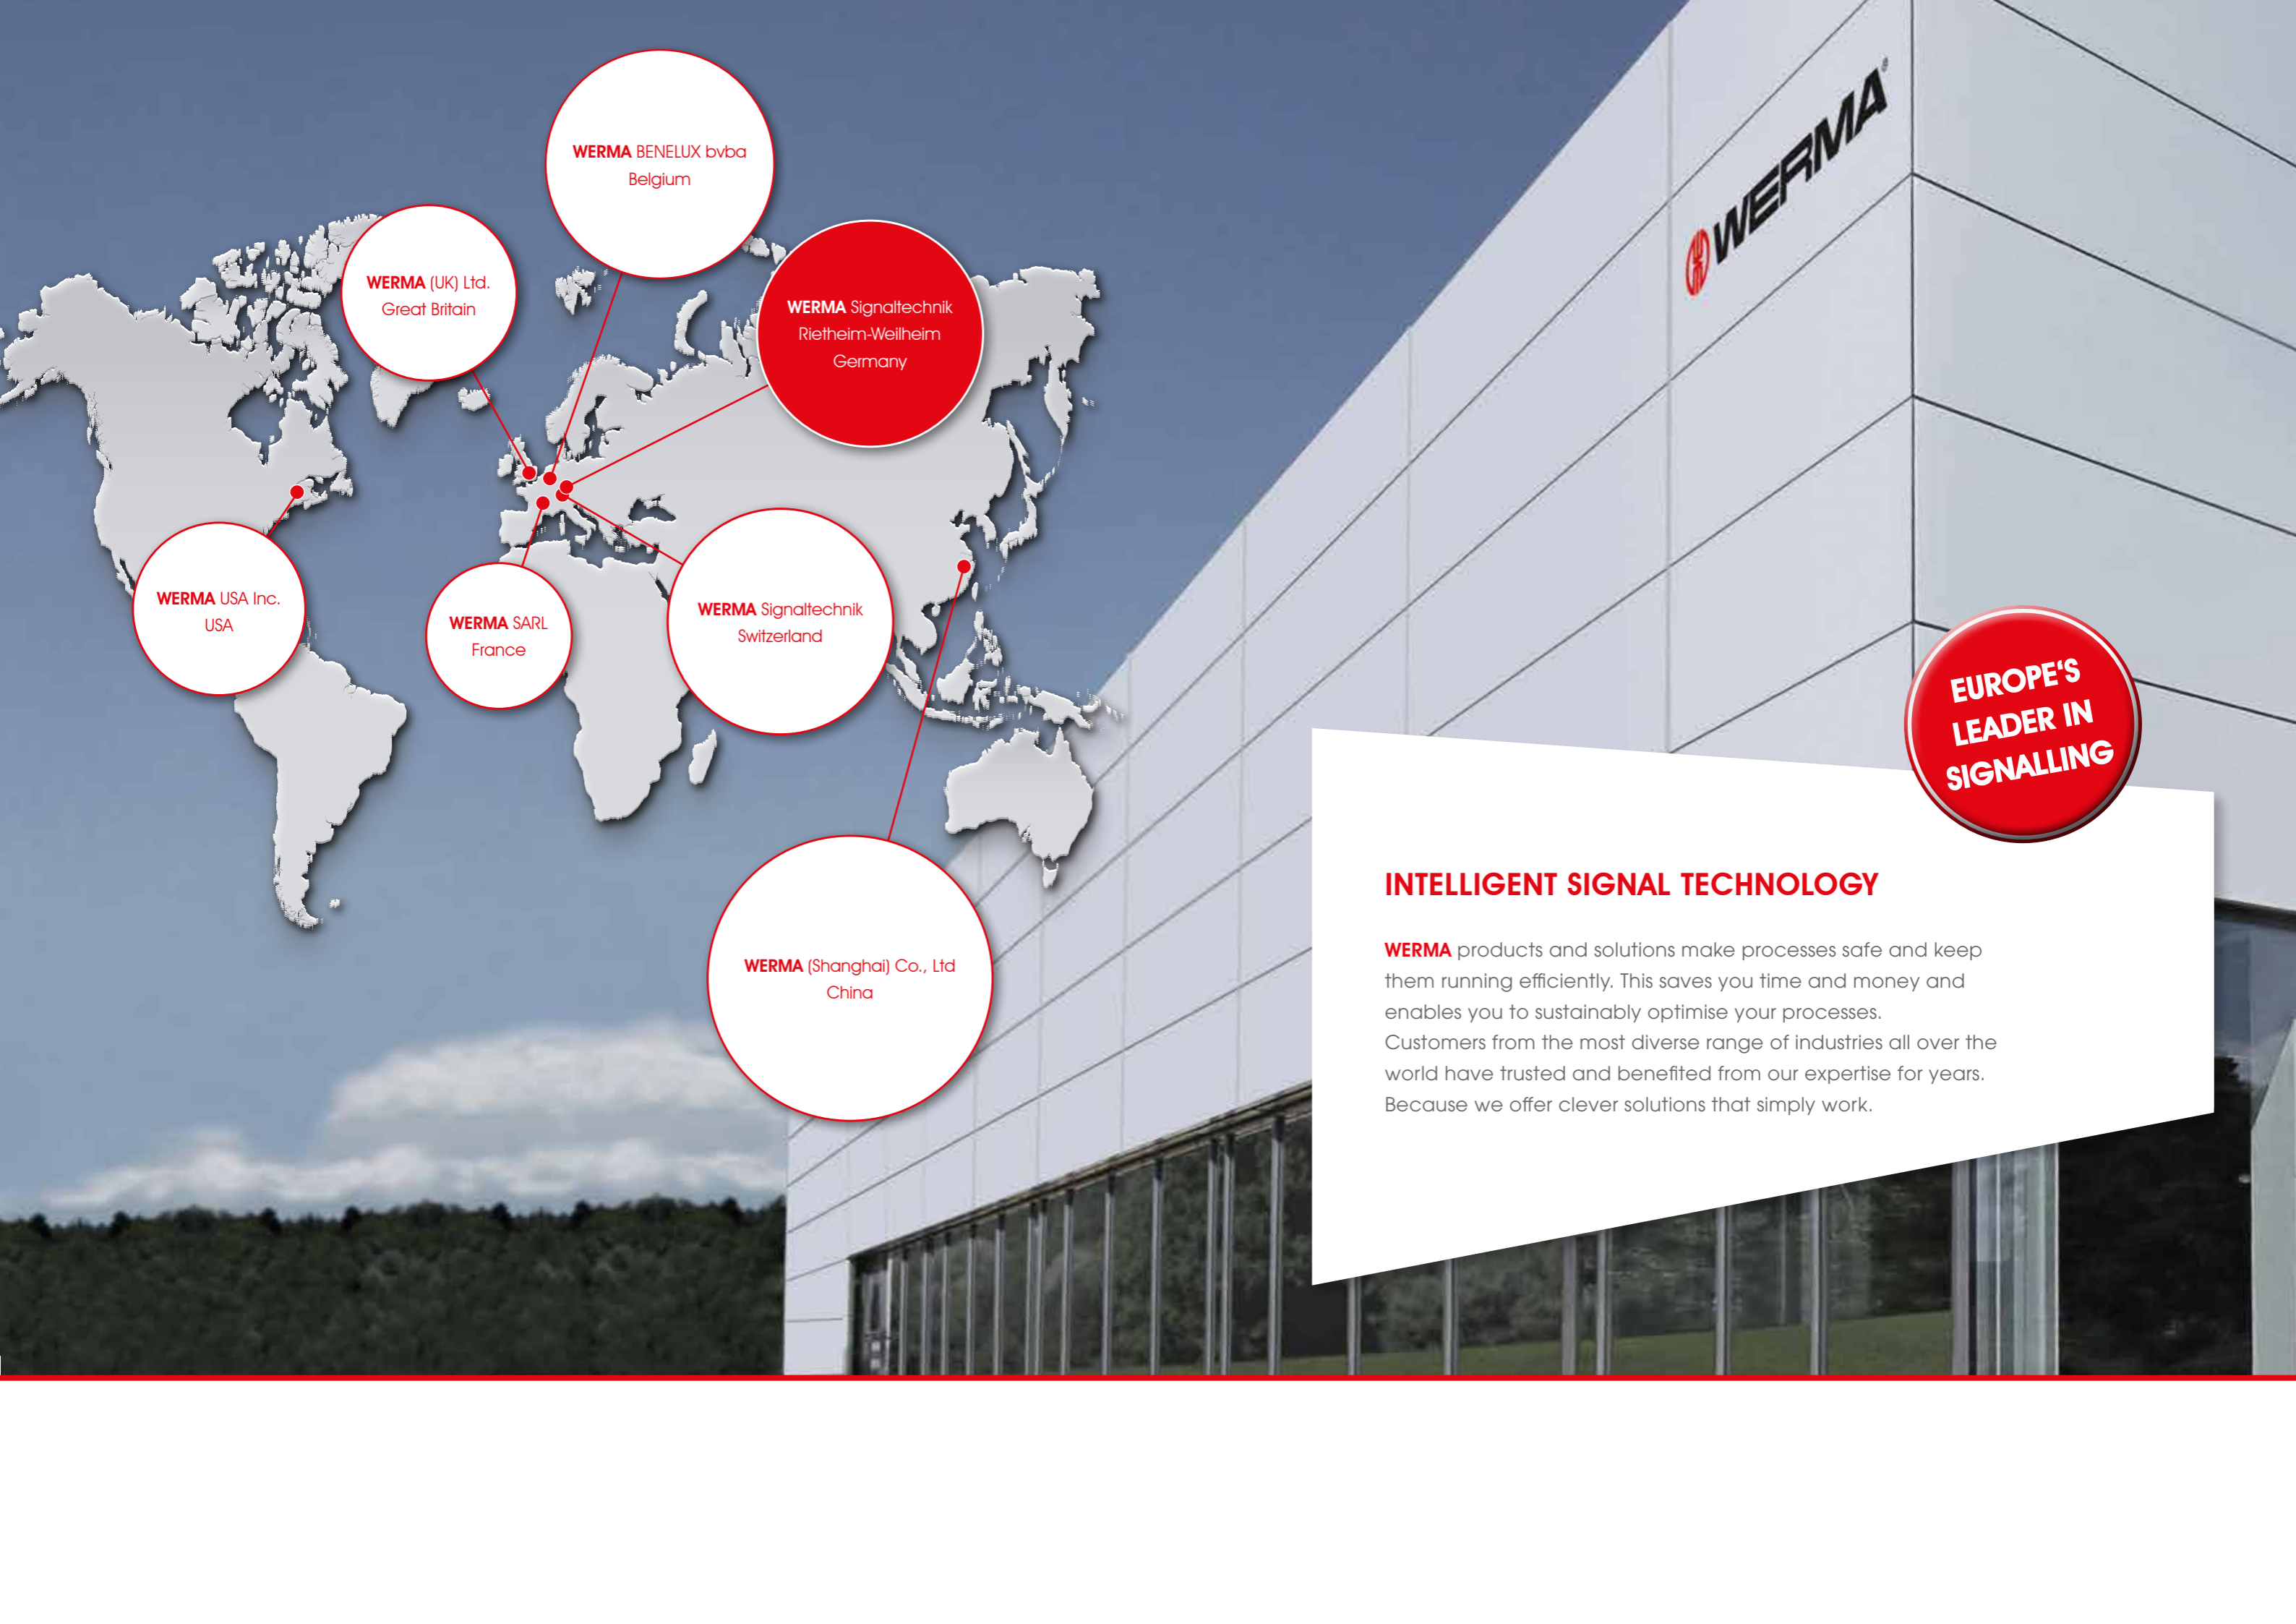

Clever solutions that simply work – this has been our goal at **WERMA** for decades, and customers from all over the world consistently confirm our fulfillment of this philosophy. We continue to set the standards for modern signal technology - and define their future: for the past twenty years with modular signal towers as the industry standard, and today with networked, intelligent system solutions. The „Made in Germany“ label provides the basis for us to describe ourselves with pride as „**Europe's leader in signalling**“.

Matthias Marquardt, CEO

INTELLIGENT SIGNAL TECHNOLOGY

WERMA products and solutions make processes safe and keep them running efficiently. This saves you time and money and enables you to sustainably optimise your processes. Customers from the most diverse range of industries all over the world have trusted and benefited from our expertise for years. Because we offer clever solutions that simply work.
