

HANDUN

HANDUN CHAIN

China Engineering Class Chain Specialist

PRODUCT OVERVIEW

More Than 40 Years

Handres of Partner in China

Thousands of Chain Items

Strong Capacity in developing

- **Precision Roller Chain**
- **Conveyor Chain**
- **Hoist Chain**
- **Agricultural Chain**
- **Engineering Class Chain**

HANGZHOU HANDUN MACHINERY CO., LTD

HANDUN Machinery is associated operation of ZHUJI CHAIN GENERAL FACTORY, one leader of industry chain. manufacturer in China, responsible for the brand, outlook of value and the export markets. Our main products are full range of industry chains, special big sprockets, couplings, conveyor equipments and copper products processing.

Depending on professional skill in chain for more than 40 years, always being focused on developing and producing engineer class chain, we have established long-term cooperation relationship with many Reasearch and Design Institute, large steel mills, Automobile factory, Heavy machinery plant, Cement plant, Combine harvester factory, etc. We are unique researching and production base of conveyor chains for Metallurgy in China.

Our TJ brand conveyor chain is honored with China Well-known trademark. Based on the mission of "Creating boutique transmission parts in China, become the dependable power transmission partner of the world customers", we improve continually our innovation ability in chain transmission system. The factory is key Hi-Tech enterprise of national Torch Plan.

Depending on excellent company culture, efficient talent team and pursuing of quality product and service, we are devoting ourselves to supply better system solution for chain transmission, bring greater value for our customers.

Our Advantage

1 Unique plate punching
Lower stroke high precision
punch special technology
to less the V hole, improve
hole accuracy.

2 Heated bent Proces
localized high-frequency
heating and bending.
Avoid cracks and ensure
hardness deviation.

3 Two lines of SY from
Taiwan, ensure the quality
of chain parts.

4 HITACHI Hydraulic Chain
Assembly line: need high
precision parts, not damage
chain parts during process
ensure the chain performance
and working life.

5 Strong mechanical
processing capacity

6 Strong welding
processing capacity

9 Lots of experienced and
dedicated technical workers
Old workers teach new
workers. They are our
greatest wealth.

7 Complete quality inspection

8 ISO9001 quality
management system
introduced 6S onsite
management.

Precision Roller Chain

- Super Series roller chain 15 to 240, 04B to 72B
- ANSI standard roller chain 15 to 240
- British standard roller chain 04B to 72B
- Cotter type roller chain 50 to 240
- Heavy type roller chain 50H to 240H

- Self-Lube roller chain 40 TO 100, 08B TO 16B
- Corrosion resistant roller chain
- Oilfield chain 80S to 240S
- Roller type infinitely variable speed chain PSR0 to PSR6

- Piv chain A0 to A5
- Side bow chain 06BSB to 10BSB, 40SB to 80SB

- Double pitch transmission chain
ANSI: A2040 to A2120
BS: 208B to 232B

- Attachment
A1, A2, SA1, SA2, K1, K2, SK1, SK2, WA1, WA2,
SWA1, SWA2, WK1, WK2, SWK1, SWK2, D1, D3

Conveyor Chain

- Straight plate roller chain C35 to C160, C08B to C32B
- Double pitch conveyor chain C2040 to C2160
- Double plus speed chain C2030W to C2080W

- Roller chain with rubber profiles 08B to 24B
- Roller chain with U type profiles 08B to 24B
- Side roller conveyor chain 40 TO 100, C2040 to C2100
- Top roller conveyor chain 40 TO 100

- Push windows chain 06B,06C,40, 08B, 415
- G ripper chain 08B, 40, 50, 60
- Chains for painting electric components 35T, 35TP
- Hollow pin chain 08B to 16B, 40 to 80,
C2040 to C2080H
- RF series conveyor chain RF03075 to RF60400

- M series conveyor chain M20 to M900
- MT series conveyor chain MT20 to MT900
- MC series conveyor chain MC28 to MC224

- Fv series conveyor chain FV40 to FV315
- Fvt series conveyor chain FVT40 to FVT315
- Fvc series conveyor chain FVC40 to FVC315

Hoisting Chain

- AL series leaf chain AL322 to AL1688
- BL series leaf chain BL422 to BL2088
- LL series leaf chain LL0822 to LL4888

- Leaf chain for sky stacker
- Car packing roller chain 16ALT to 20ALT
- Car packing conveyor chain

- Multiple plate bearing pin chains LB35 to LB250

Agricultural Chain

- Hoist chains for harvester 415S
- Rice Harvester Chain 3322 to 3358
- Combine chain S38
- SA.series agricultural chain S32 to S62
- CA.series agricultural chain CA550 to CA620

The agricultural chain used different attachment suitable for agricultural machine

- Combines
- Round Balers
- Manure Spreaders
- Elevator Feed Systems
- Salt and Sand Spreaders

- Stackers
- Forage Harvesters and Baggers
- Self-Unloading Boxes
- Live Bottom Trailers

Engineering Class Chain

- Asphalt
- Automotive
- Bakery
- Cement
- Construction
- Food Processing
- Forestry
- Grain Handling
- Heavy Machinery
- Latex Gloves
- Meat Packing
- Metallurgical
- Mining
- Palm Oil
- Pulp and Paper
- Recycling
- Sewage Treatment
- Steel Mills
- Sugar

We manufactured other transmission parts to complement our chain including:

- Special sprocket
- Special coupling
- Chain conveyor
- Machine parts
