

RUBBER HOSE FIELD

Thanks to the Know-how about processes implementation and to industry player's needs, **ALCI** Technical Dept. and its Factory are able to realize machinery suitable for the production, processing and transport of rubber and plastic products. Among these, rubber hoses for the Hydraulic (high strength and high pressure steel reinforced rubber hoses) and Industry ones, tyres and test benches for hoses testing.

SERVICES

- ◆ Technical Advice
- ◆ Mechanical Design of Lines, Plant and Equipment
- ◆ CEE Certification and operator manual
- ◆ Operations of assembly, disassembly and displacement for plant and machinery
- ◆ Building site management and qualified technical assistance
- ◆ Planned and unplanned maintenance assistance

PRODUCTS

- | | |
|----------------------------|-----------------------------|
| ◆ Hoses Packing Machinery | ◆ Puller Capstan |
| ◆ Bending Machinery | ◆ Bobbin Winding Machinery |
| ◆ Wrap / Unwrap | ◆ Caterpillar |
| ◆ Tape Wetting and Winding | ◆ Automatic Mandrel Storage |
| ◆ Vertical Winding | ◆ Rubber Conveyors |
| ◆ Horizontal Winding | ◆ Trolley Line Machinery |
| ◆ End Milling Machinery | ◆ Spiraling Machinery |
| ◆ Cutting-off Machinery | |

Bobbin Winding Machinery

Spiraling Machinery

End Milling Machinery

Automatic Mandrel Storage
