

YOUR BENEFITS AT A GLANCE

- »»» Ongoing professional development
- »»» Course contents ready for implementation in your current job
- »»» Minimal classroom-based education promotes work/life balance and learning
- »»» Up-to-date Fraunhofer research knowledge integrated into business practice
- »»» New career opportunities with recognized qualifications
- »»» Advanced access to new technologies
- »»» Tools to develop new products, processes and services
- »»» Competitive advantage through Fraunhofer-Gesellschaft networks

ADVANCED TRAINING WITH FRAUNHOFER

ADVANCED TRAINING – THE FRAUNHOFER APPROACH

Customized training

In preparing our qualification programs, we tailor the content of our training courses to meet your company's specific needs.

We have customized training programs regarding following topics:

- Industry 4.0
- Additive Manufacturing
- Battery Technology

You can contact us

- By phone: + 49 89 1205-1599
- by email: academy@fraunhofer.de
- by visiting our website at

www.academy.fraunhofer.de/en

Since 2006 the Fraunhofer Academy is the Fraunhofer-Gesellschaft's specialist provider of continuing education and part-time training for people in employment. Through a range of training programs, the Fraunhofer Academy passes current research knowledge and expertise of the Fraunhofer institutes on to private sector business enterprises seeking to provide their employees with the best possible qualifications. After all, applied research is only useful if new research finds its way into industry and is then turned into innovations.

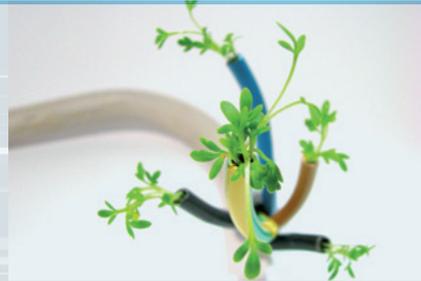

Employees of technology oriented companies can choose between part-time study programs, certificate courses and multi-day seminars. The combination of face-to-face events and digital teaching and learning methods allows to create a professional development environment that corresponds to the modern lifestyle.

Best wishes,
Dr. Roman Götter,
Head of the Fraunhofer Academy

COURSES AT THE FRAUNHOFER ACADEMY

CHOOSE FROM SIX THEMATIC AREAS

ENERGY AND SUSTAINABILITY

- Wind Energy and Wind Energy Systems*
- Solar Energy Engineering*
- Building Physics
- Acoustics
- Environmental Sciences
- Energy Data Analyst
- Energy System Technology
- Electromobility
- Resilience Engineering*

TECHNOLOGY AND INNOVATION

- Executive MBA
- Intellectual Capital Statement – Made in Germany*
- Chief Technology Manager
- Research and Innovation Management

INFORMATION AND COMMUNICATION

- Software Engineering for Embedded Systems*
- Material Informatics
- Big Data and Data Scientist*
- Usability Engineer
- Usability und User Experience (UX) Testing
- Roberta® Teacher Training
- Cyber Security
- Blockchain
- TeleTrusT Information Security Professional
- Software Architecture
- Digital Twins
- Industrial Data Space

MANUFACTURING AND TESTING TECHNOLOGY

- Fiber Composite Technology*
- Industrial Adhesive Bonding Technology*
- Bonding Wooden Construction
- Quality Control for Wooden Production
- Non-destructive Testing
- Heat Flux Thermography
- Joining Technology in Electronics
- Industrial Cleaning Technology
- Safety and Security Engineering*
- Additive Manufacturing
- Functional Printing

LIFE SCIENCES

- Tissue Engineering

* available in English

LOGISTICS AND PRODUCTION

- Logistics and Supply Chain Management
- Industrial Production Management
- Product Lifecycle Management Professional
- Logistics Management
- Lean Logistics
- Human-Robot-Collaboration
- Inventory Management
- Value Stream Engineering
