ACTIVE MANAGEMENT

We believe that the management and control of distributed objects should be as simple as possible. This is why we have developed Active Management for you. Thanks to its intuitive user interface, you can initiate actions and processes centrally – whether for CPO management or server farms: We make it work – Active Management.

> no in-depth IT knowledge required

> evaluation and reaction to object status in real time

> integration into call center solutions

> applications in a wide variety of industries and areas

> flexible adaptation to individual customer requirements
