

COMPANY PROFILE

***ANCAGSAN** has been founded in 1988 and started to manufacture the spare parts of construction machines in Ankara/TURKEY. **ANCAGSAN** has been manufacturing hydraulic cylinders especially for heavy duties in between 5 and 1200 tons capacities since 1997.*

***ANCAGSAN** is a company who adopted the absolute customer satisfaction and aims to provide its products beyond the customers' expectations.*

*All products have **CE** certificate.*

***ANCAGSAN** has a wide product range consisting of hydraulic cylinders for construction machines for CAT, Hitachi, Komatsu, Daewoo, Hyundai, etc.*

*Some of **ANCAGSAN**'s hydraulic cylinder models for CATERPILLAR are 225, 320, 330, 345, 365 and 385. **ANCAGSAN** has especially good market in big types like 345, 365 and 385. There are big companies using **ANCAGSAN**'s hydraulic cylinders in Turkey, Europe and Middle-East.*

*Also there are telescopic cylinders, industrial and special design hydraulic cylinders in **ANCAGSAN**'s product range.*

*Moreover **ANCAGSAN** manufactures high pressure **700 bar** hydraulic cylinders, hand pumps and electric power units with “**anca**” trademark. These products have been exported to Germany, Iran, Georgia, Dubai, Abu Dhabi etc. since 2008.*

***ANCAGSAN**'s 700 bar hydraulic cylinders are as below:*

- 1. Low Profile Single Acting Hydraulic Cylinders,***
- 2. Hollow Plunger Hydraulic Cylinders,***
- 3. Lock Nut Hydraulic Cylinders,***
- 4. Spring Return Single Acting Hydraulic Cylinders,***
- 5. Double Acting Hydraulic Cylinders,***
- 6. High Tonnage Hydraulic Cylinders,***
- 7. Aluminum Hydraulic Cylinders,***
- 8. Strand Jacks,***
- 9. Pile Test Hydraulic Cylinders,***
- 10. Bar Stressing Hydraulic Cylinders,***
- 11. Marble Block Tilting Hydraulic Cylinders,***

***ANCAGSAN**'s products have been preferred in diggers, loaders, cranes, forklifts, agricultural machines, etc. and particularly in iron & steel industry and mining sector where heavy duty exists.*

Some of references are as below:

- 1. Bauer Group (Germany, Georgia and Lebanon)**
- 2. Megatech Foundation Co. (Abu Dhabi)**
- 3. HST Hydraulic (Germany)**
- 4. Khansar Metal Industry (Iran)**
- 5. Dogus Group (Turkey)**
- 6. Vicat Cement Factories (Turkey)**
- 7. Limak Group Cement Factories (Turkey)**
- 8. Kardemir Iron & Steel Factory (Turkey)**

ANCAGSAN carries out the project and manufacturing with its experienced engineers and qualified personnel according to the customer specifications in committed delivery time.

ANCAGSAN carries out its activities in order to define the customer needs and to provide the best solutions by its well formed customer oriented ISO 9001:2008 quality management system.

In this regard, **ANCAGSAN** has formed its quality management system for procurement from approved suppliers, process oriented operations and continuous improvement in production.

All personnel, who are responsible for product quality in **ANCAGSAN**, implement their functions with the philosophy of "quality is not controlled, it is generated" in design, procurement, production, test and shipment processes.

ANCAGSAN knows the importance of qualified team member and teamwork that's why considers important of internal and outsourced education for continuous improvement of its personnel.

ANCAGSAN's basis is to create delighted customers.
