

DAE HWA E/M CO., LTD.

Geared motors

Standard AC Geared motor

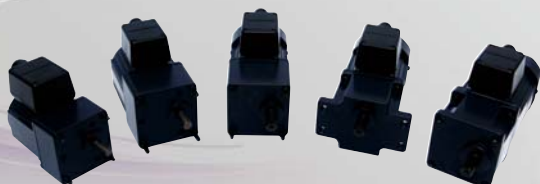

INDUCTION/REVERSIBLE MOTOR

- Being applicable at continuous rated operation, Frequent reverse running is possible, simple structure

BRAKE MOTOR

- Enabling motor to stop instantly when the load maintains or power-off

TERMINAL BOX TYPE INDUCTION/REVERSIBLE MOTOR

- Providing the protection from dust & moisture in harsh environment

SPEED CONTROL MOTOR

- Being suitable for Various purpose like speed control, slow run, slow stop

TORQUE MOTOR

- Providing high torque & sloping characteristics

SPEED CONTROLLER SERIES

- Speed control, stop, displaying the speed at monitor

DAE HWA E/M CO., LTD.

Geared motors

Customized DC motors

D6015-12B30

- Low noise by acetal gears

D960-30B0-JI5

- The encoder & brake can be mounted at rear

Ø135 High Power DC Motor with Planetary Gearhead

- High Power
- Low Voltage (battery etc.)

D61A-108B0-IJ3

- For Pad switch in medium voltage equipment

BLDC motors

STANDARD BLDC GEARED MOTORS

- Easy connection & simple operation
- Thin & compact size
- Wide speed range and constant torque
- 12pole, 3phase, hall IC shielded ball bearing
- Special making as per customer requirement is possible
- CE mark, IP65

Ø79 24V Brushless DC Circulation Pump

- Built-In Driver
- 0~5VDC Vsp or 12V PWM Speed Input
- Speed Output (6 pulse per revolution)
- Current Limit Protection
- BMC Moulding Type Housing
