

## 2. 제품 개요 (Product Overview)

### Main Products & Goods - High precision ball screw

NAME	INFORMATION	PRODUCTS FORMATION	FEATURE
Precision ball screw	Ball screw nut and screw inserted in the groove between the helical structure using rolling motion of the rotation drive unit that converts the linear motion as to the precision of the positioning, heavy load, high rigidity, low energy efficiency as can yiled.	<ul style="list-style-type: none"> <li>• Rolled Ball Screw</li> <li>• SLK, STK MBS : Standard Rolled Ball screw (JIS standard)</li> <li>• SDK, SDH : DIN standard rolled ball screw</li> <li>• Grind ball screw</li> </ul>	<ul style="list-style-type: none"> <li>• 6~80mm diameter and variety load</li> <li>• Produce rolled ball screw P3, P5, T7 accuracy</li> <li>• Produce max 6 meter</li> <li>• Quality control under Europe DIN standard</li> </ul>
