

2. 제품 개요 (Product Overview)

Main Products & Goods - LINEAR RAIL SYSTEM

NAME	INFORMATION	PRODUCT FORMATION	FEATURE
LINEAR RAIL SYSTEM	LINEAR RAIL SYSTEM, through the low-friction ball rolling motion, high-efficiency, linear motion bearings, linear motion as to Machine Tools, Automation Machines, LCD, semiconductor and other industries on the configuration of the linear motion guide system is an effective part	<ul style="list-style-type: none"> • SBI heavy load, high rigidity linear rail system • SBG/SBS standard linear rail system • SPG/SPS low noise linear rail system • SBM, SBML, SBMW miniature linear rail system 	<ul style="list-style-type: none"> • Heavy load, high rigidity • 4 ways equal load type • Self adjusting capability by DF structure • Variety additional options
