SHAPES THE POWER

THE JOURNEY OF AMBITION AND SUCCESS...

In 1960, Simav in Kütahya province, KAZCIOĞLU commercial brand started its career, will create a tremendous impression to the Aegean in the begining, which would later become the hero of a success story that will resonate in all of Turkey.

The KAZCIOĞLU Family, working with the endeavor of every piece it produces since the day it was founded, to be the best of every product offered to the service of mankind, became a founder of a progressive, human-focused culture.

WHO WE ARE?

Since 1960, we have been producing pipeline, machining products, cold formed products for automotive, tractor, heavy construction equipment, railway and defense industry including steering systems for agricultural and construction machinery under KAZCIOĞLU brand. Our company, which produces more than 2500 OEM references, has IATF 16949: 2016 and TS EN ISO 9001: 2015 certificates.

GREAT POWERS ARE GENERATED WITH SMALL PARTS.

KAZCIOĞLU is operating with 400 qualified staff in a total area of 100.000 m² of which 20.000 m² is built up.

KAZCIOĞLU has a product scope which appeals directly to main industrial production by many sectors with its quality production strategy.

KAZCIOĞLU manufactures pressure pipe and hose assembly, machining part, steering parts and cold formed parts to automotive, agricultural, heavy construction equipment, railway and defense industry with state of the art technology.

KAZCIOĞLU manufactures its products integrating Machining, Tube Bending, Assembly, Welding, Brazing, Quality, Dies and R&D departments to introduce them to Turkish market and world market with more than 20 countries.

**BENEATH THE

LOVES WHAT
THEY DO...**

VISION

Being the first company in our field of expertise to continuously improve our own methods, undertake the pioneering of the industry and to be the first company to be thought when the quality comes to mind in order to increase the efficiency and productivity of our company in national and international markets.

MISSION

Our mission; to give the best to our customers and end-users in all the sectors we serve, in the light of the developing technology, we shape ourselves before we shape the power.

HIS TORY

1960

1960- Stepping into industrial life with a small repair workshop.

Starting production of tube and hose assemblies

1981

2002

Moving to new plant with 3500 m² built-up area.

2003- Accredited ISO 9001

2008- Accredited ISO 16949

2003 - 2008

2012

Starting production of cold forming.

Adding 8000 m² area and reaching 11.500 m² built-up area in total.

2016

Building 8500 m² more to built-up area and reaching to 20.000 m² of built-up area.

2012

Starting production of steering parts.

2018

Purchasing 215th machine for production (CNC Lathe)

The welding department is producing atmospheric controlled (Brazing) welding furnace, oxyacetylene source, gas arc arc welding (MIGMAG), TIG welding, induction welding, electric arc welding and spot welding developing its capability day by day.

POWER

SUCCESS IS
ALWAYS ON
SIDE OF THE
BRAVE ONES.

KAZCIOĞLU who adopted the principle of using 5S and Lean Manufacturing techniques in order to produce its products with zero-defect, also use Kazien, Poke-Yoke and so on.

Under KAZCIOĞLU brand name, all production processes are planned and controlled by ERP applications to ensure zero-defect policy.

WE WILL
CONTINUE
PRODUCING THE
BEST, WITHOUT
COMPROMISING
ON QUALITY,
TO CREATE A
SAFER LIFE
AND BRIGHTER
FUTURE.

KAZCIOĞLU is able to perform bending on steel, aluminium, copper, brass, stainless and Bundy tubes, from $\varnothing 4$ mm up to $\varnothing 80$ mm diameter. At the same time we have also the ability to perform flaring, narrowing and upsizing on same diameters.

WE OPEN
OUR EYES TO
DO BETTER
EVERY BRAND
NEW DAY.

YOU DEMAND THE BEST,

YOU CAN SEE OUR CONCRETE FACTS INSTEAD OF ABSTRACT DISCOURSES AT VERY BEST OF TURKEY AND THE WORLD.

Machining department includes CNC Sliding Vending Machines, CNC Turning, CNC Machining Center, Universal Turning and Milling.

With a machining center capacity of 800 x 550 mm, turning capacity up to $\varnothing 240$ mm, this area processes material types with precise tolerances.

All dies and gauges and apparatus used in cold forming, tube and hose assembly manufacturing are produced at Die Manufacturing Department. 99% of these dies and gauges are developed in-house.

THIS IS WHY
WE ARE HERE.

DURABILITY & BALANCE

Our cold forging department, which has an annual forging capacity of 20 million pieces, performs forging of many different parts between 50 gr and 1000 gr, especially for Link Stabilizer, Axal Joint, Ball Joint and Tie Rod housing.

KAZCIOĞLU which has the highest capacity of cold forming plant in Turkey, produce its products for the industry's most powerful brands.

**THE TARGETS WE
AIM FOR DO NOT
GET THROUGH THE
RANDOM WAYS. WE
PRESENT YOU THE
BEST CODING OUR
HEART AND MIND TO
THE PASSWORD OF
SUCCESS.**

In the coating section, based on the cleanliness and protection of the environment two different types of coating processes are realized by an fully automatic robotic system.

KAZCIOĞLU team, who shows great diligence at every stage of production, shows the same attitude in the quality control phase and fulfills the promise of giving the best to the users and customers.

EXCELLENT
QUALITY

QUALITY IS NOT AN ACTION,
IT IS A HABIT FOR US.

KAZCIOĞLU constantly improves its measurement capability in Quality Control Laboratories in accordance with the demands of its customers.

All products are tested with 100% leakage test, pressure and impact pressure tests.

KAZCIOĞLU has the power to make precise and controlled measurements with more than 400 types of gauge and control equipment with modern and state-of-the-art spectrometer, contour profile scanning measuring instrument, 3d faro measuring handles, digital hardness measuring instrument, surface roughness meter, profile projector, internal pollution meter and apparatus, 3d printer systems in house.

THERE IS BETTER

Export and import is a daily part of KAZCIOĞLU's global operations. KAZCIOĞLU has adopted the principle of moving its products beyond international borders and is a preferred brand carrying 58 years of experience to more than 20 countries so far.
