BASETECH

NINGBO LANGYI METAL PRODUCTS CO.,LTD.

## COMPANY PROFILE

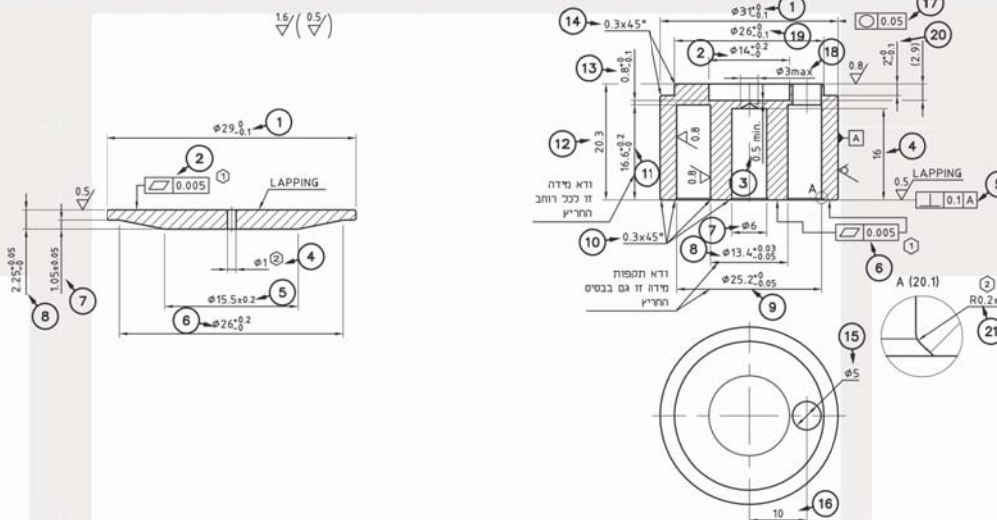

Established in 1997, Ningbo Langyi Metal Products Co.,Ltd. focuses on machining parts based on technical drawings or samples. And we also work with designers from Israel and USA to turn their designs into real products.

All products pictures and drawings in this brochure and our website, and products showed on exhibitions are just to explain what type job we are doing, not for sale to any other third party. We respect the confidentiality of all customers.

In order to provide our customers with comprehensive solutions, we also source from our nearby sources such as stamping parts, zinc& aluminum die-casting parts, extrusion parts etc., we control the quality strictly. We are also the supplier of KITZ Group from Japan to provide its factory in Brasil with valve parts such as pneumatic actuators and solenoid valves etc.

If you have interests for us, just send us your technical drawings for an enquiry.

## Customisation as per your drawings or applications

## MATERIALS
