

SMART ABSOLUTE ENCODER

Why is Smartec?

We, Smartec, mainly develop and sale smart sensor, smart controller, and smart actuator for military and industrial application.

We are relatively customer oriented company which is working closely with customer.

- Precise Measurement
- Various Measurement
- Cheap Price
- IoT Technology
- Auto-Tuning while Running

SMART ABSOLUTE ENCODER?

- For servo motor, multi-axis CNC, and multi-axis robot
- For doing accurate work and precision processing
- For preventive maintenance from detecting vibration

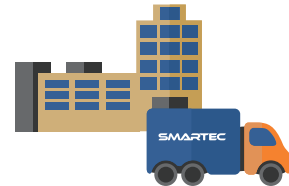

Various Measurement

- measures position/velocity/shaft vibration
- measures particularly or simultaneously

Precise Measurement

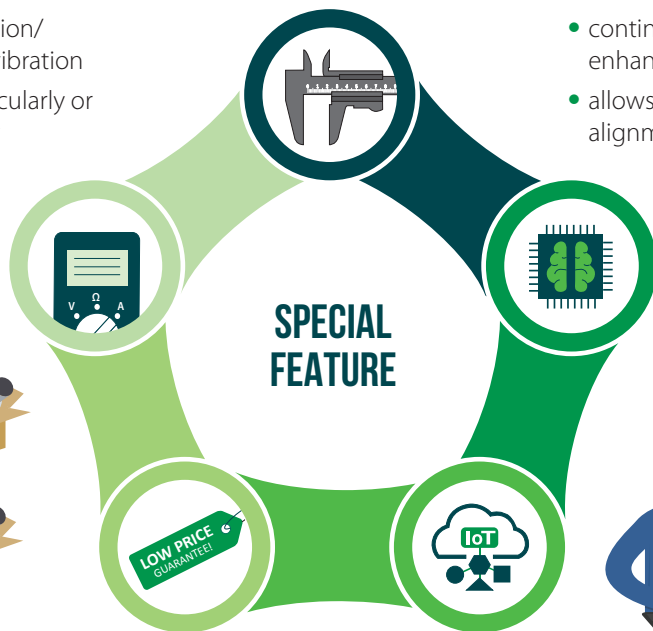

- It has 16-bit accuracy and 23-bit resolution.

Auto-Tuning while Running

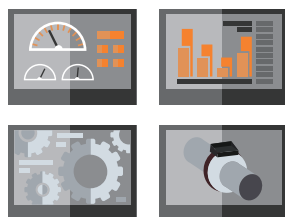

- continuous learning for enhanced accuracy
- allows offset and mis-alignment for assembly

SPECIAL FEATURE

Cheap Price

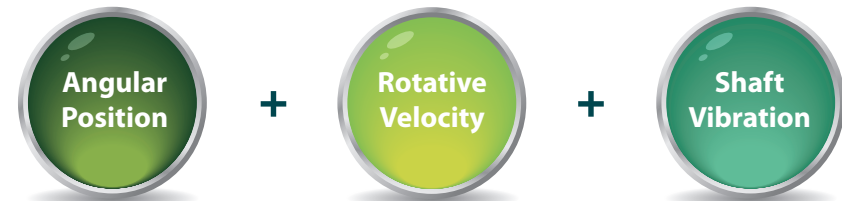

- It is cheaper than competitive magnetic encoder

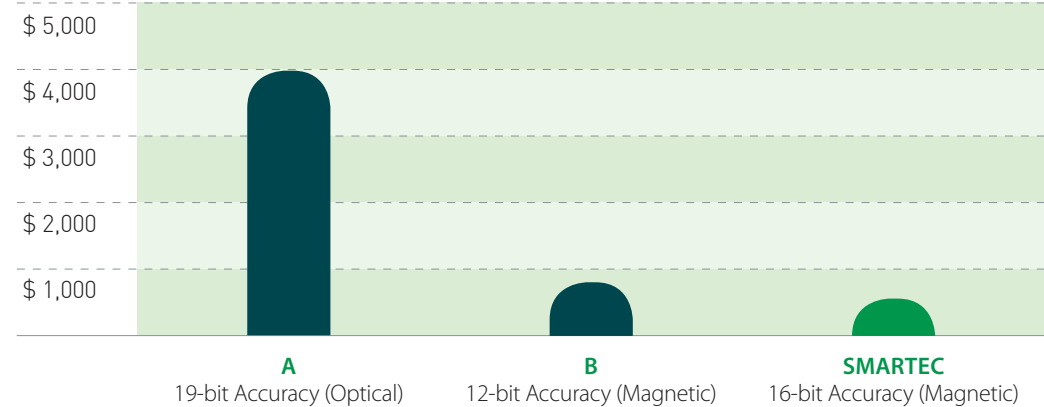

IoT (Internet on Things) Technology

- provides IoT for the Fourth Industrial Revolution
- supports customer protocol

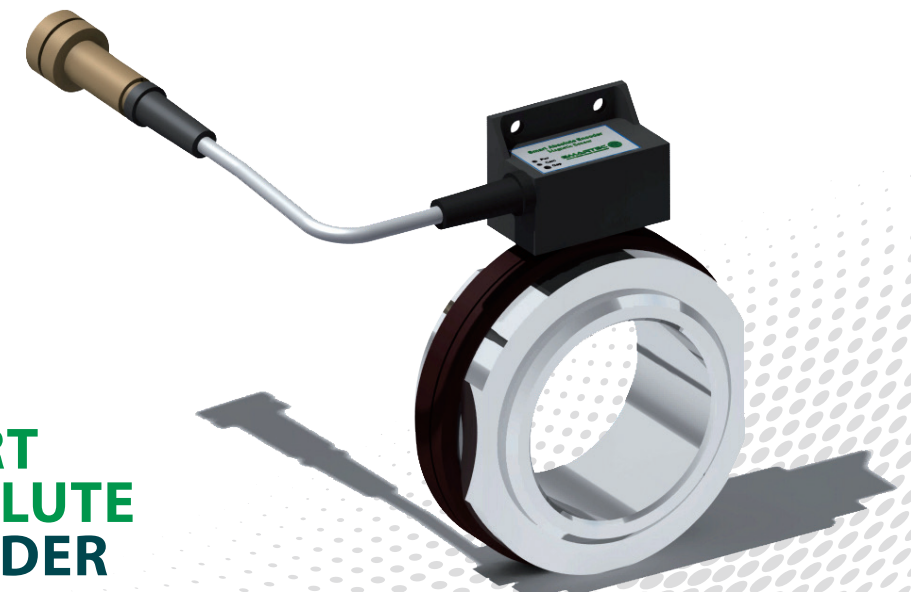

WHAT ONLY WE CAN "ABSOLUTELY" MEASURE

CHEAPER, BUT BETTER
