

主营产品

MAIN PRODUCTS

专业研制开发了聚四氟乙烯 (PTFE)、聚酰亚胺 (PI)、聚醚醚酮 (HrPEEK)、聚苯酯 (POB)、对位聚苯 (PPL) 等各类高分子复合材料及多元高分子复合材料，生产加工最大可达 $\Phi 3300\text{mm}$ 外径的大型、异型特种工程塑料制品，如：泛塞封、活塞环、导向环、导轨板、导向带、斯特封、格莱圈、挡圈、非标异型密封圈、油管、气管、绝缘管、阀座、轴套、轴承、法兰垫、球阀垫、减震垫、车削板、平板、圆棒、筒材、生料带、盘根等。

We have developed many kinds of polymer based composites and multicomponent polymer composites professionally such as PTFE, PI, HrPEEK, POB and PPL etc. We also produces and processes large-scale and irregular shaped special engineering plastic products with the maximum outer diameter of $\Phi 3300\text{mm}$, such as, spring seals, piston rings, guide rings, guide plates, guidance tapes, Stepseals, Glyd rings, check rings, non-standard shaped seal rings, oil pipes, air pipes, insulation pipes, valve seats, axle sleeves, bearings, flange gaskets, ball valve, shock pads, PTFE skived sheets, slabs, round bars, drum materials, raw material belts, packings, etc.
