Product Description

Material	3003 3103 6063 6061 6005 6060 6082 5052 5083 7075
Temper	T4 T5 T6
Shape	Customized
Thickness	Above 0.7mm or customized
Usage	Construction / Industrial

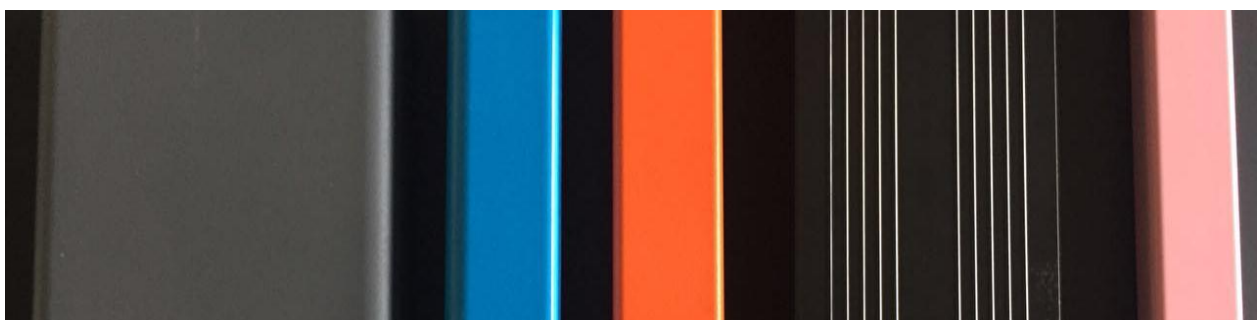

Surface treatment	mill finish / powder coating / Electrophoresis / Light anodizing / Sandblasting anodizing / Sand alkai anodizing / Golden anodizing / black anodizing / Dyeing oxidation
Length	Max 6.0m
Packaging Details	1. Plastic bag or EPE wrapped for each separate profile; 2. 10 or more pieces packed in a paper box; 3. Wooden case or steel rack is available; 4. Customized packing is acceptable.
Deep processing	Drilling / milling / welding / bending / punching / CNC machining
Certification	ISO 9001 / ISO 14001
Production Capacity	8000 MT/year
Sample lead time	About 15 - 18 working days including 7 - 10 days of making tooling if it's necessary
Payment term	30% upon order confirmation and balance before delivery by T/T
Minimum Order	500kg per trial order .One pc of sample free of charge provided by approval and kept for future
Shipping Term	FOB / CIF or others which can be discussed
