

TQ - your partner for the unlimited world of electronics

TQ provides services all around electronic assemblies and systems from one source.

↳ **CEM/E²MS | System services:** We develop and produce your electronic assemblies and ready-to-use units according to your demands from the idea to the finished product.

We also do the design and construction of your switch gear devices.

↳ **OEM | Embedded modules and Industrial PCs:** With the Embedded modules and Industrial PCs from TQ, you get your products faster to marketability and are able to respond more flexible to future demands.

We provide modular products and solutions based on x86, Power Architecture™, ARM and ColdFire®.

↳ **ODM | Complete products after solution kit principle:** Concentrate yourself on the outlet market - TQ takes care about the product side all along the product life cycle.

Strong company

TQ produces at five locations in Germany (Seefeld, Murnau, Peißenberg, Peiting and Wetter an der Ruhr) as well as in Fontaines/Switzerland and Shanghai/China.

TQ employs around 900 staff members. 90 of them are in the electronic development at the locations Delling and Chemnitz.

In Germany, TQ is one of the TOP 10 full service provider. The overall turnover of TQ is 133 million Euro.
