# PSI*wms*
100 % Releaseability – Future Included

PSI🥜

PSI*wms*

The warehouse management system for optimizing your intralogistics

PSI*wms* plans, controls and optimizes business processes in intralogistics. The product provides modules with exclusive, trendsetting developments.

You are supplied with a powerful standard system that can be easily and flexibly adapted to the respective requirements thanks to its modular structure. The principle is: as much as necessary, as lean as possible.

For your project we will provide you with the security that your logistics deserves: We have decades of experience and have already put into operation several hundred successful warehouse projects.

As a 100 % subsidiary PSI Logistics bundles the profound logistics competence of the PSI corporation that employs 1650 staff worldwide. Founded in 1969 PSI is one of the renowned German software houses and belongs to the TOP 10 of the German standard software companies.
