

Since 1996 company HTP s.r.o. has focused its business activities in the area of custom manufacturing and the sale of welded, pressed, shot blasted, machined and turned metal parts, products from rubber and plastic material and all this completed by assembly.

Our key references:

WE OFFER:

Wide range of services to our customers in:

- Welding
- Pressing
- Shot Blasting
- Machining
- Production of rubber
- Production of plastics
- Assembly

We built on these bases:

- Quality
- Know-how
- Speed
- Low cost
- Logistics

OUR MACHINES:

Punching and Nibbling	7 CNC Swiss Type Automatic Lathes
2 Laser Cutting	34 CNC Universal Lathes
Plate Shears	6 CNC Universal Machining Centres
2 CNC Band Saws	3 Conventional Milling and Drilling
2 CNC Press Brakes	5 Drilling Machines
3 Mechanical Presses	Thread Cutting
Hydraulic Press	2 Centerless Grinding
8 Hand MIG/MAG Welding	CNC Laser Marking
Hand TIG Welding	3D Measuring Arm
2 Spot Welding	3D Measuring Machine
Stud Welding	Surface Roughness Tester
Hook Type Shot Blast Machine	Microscope Measuring Instrument
2 Tumbling Machines	Profile Projector Instrument
Washing Machine	Others Measurement Equipments

High-quality products are given for company HTP s.r.o. while respecting the determining factor in the custom manufacturing, which is the price.

For this reason we apply principles of lean production and continuous improvement of all processes in our company.
