

ALCRYSAFE[®]

the **Next Generation Technology**
Valves & Pressure Control Solutions

alcris
Fluid-Control & Services

ALCRYS Fluid-Control & Services 2016 presentation

WHO WE ARE

French manufacturer of Innovative Pressure Regulating Solutions for High-Pressure gases up to 1000 bars

- Headquarters, Offices & Workshop - chemin de Barlatier Le Canet 13590 Meyreuil (FRANCE)
- Founded in March 2010
- SAS with capital of 90750€
- RCS Aix-en-Provence
- SIRET 521 290 866 00040
- CODE NACE 2812Z Manufacture of fluid power equipment

REDUCING PANEL,
PRESSURE
REDUCING SKID,
FILTRATION SKID,
MANIFOLD
CHANGEOVER
PANEL, PRESSURE
REDUCING LINE,
TEST BENCH...

We are able to
design, develop
and manufacture
systems to fulfill
specific
applications. Our
DNA is to
provide
components or
systems that meet
exactly your
specific
requirements.

INNOVATE
with
ALCRYSMART

A unit gathering
the expertise of
an engineering
consultancy and
skills of a Research
and Development
department. A
synergy of
knowledge for
your most
demanding
technical projects.

IMPROVE
with **AOD**

With AOD
(Alcrys On
Demand),
enjoy an
extensive
service
offering on
demand
(engineering,
maintenance
support,
commissioning
, specific
training...)

Flexible Manufacturing & Reactivity

Assembly

Ultrasonic cleaning inert gases & oxygen
Pneumatic test up to 400 bars (dynamic)
Helium leak test up to 450 bars (static)

Engineering

CAO 3D
Finite Element Modelling
Fluid Dynamics Simulation
CODAP 2010
PED compliance

Sales support

Sizing & design
Technical advice
Custom solutions
Technical documentation

Machining : conventional lathe and milling

Hydraulic proof test up to 2500 bars
TIG Welding

Ensemble, sublimons votre potentiel !
