EREDI BAITELLI: SINCE 1945 PRECISION TURNING

Our mission: being your partner

These few words best sum up the thought which has guided us for over 50 years; time spent not only on working enthusiastically in the metal turning sector, but also in **gaining experience, satisfying customer requirements and increasing overall Quality**. The need to stand out in the market, to differentiate our products and to constantly look for new business opportunities has allowed us over the years to reinforce our worldwide presence and helps us to promptly grasp signs, tendencies and problems which closely interest us.

This is **EREDI BAITELLI SpA** today: A competent and reliable partner with a team of skilled professionals, who know how to support the customer throughout the entire production cycle, using cutting-edge technology and able to guarantee final Quality in an industry of increasing requirements and growing competition.

RELIABILITY

The environment: a well-respected companion

Along with productivity, quality and efficiency, our environmental policy is a vital element of our company Mission; tough measures have therefore been taken in order **to prevent or reduce any negative effects on the environment** and to limit the use of non-renewable resources: **atmospheric pollution controls, fume emission systems, energy consumption, noise pollution and waste management.**
