EREDI BAITELLI:
SINCE 1945 PRECISION TURNING

Our mission: being your partner

These few words best sum up the thought which has guided us for over 50 years; time spent not only in working enthusiastically in the metal turning sector, but also in **gaining experience, satisfying customer requirements and increasing overall Quality.**

The need to stand out in the market and to differentiate our products as well as to look always for new possible business opportunities, has allowed us to reinforce our presence in Europe over the years, and enables us to promptly grasp signs, tendencies and problems which closely interest us.

This is **EREDI BAITELLI SpA**: today: a talented and reliable partner employing a team of skillful professionals who know how to support the customer throughout the entire production cycle, taking advantage of cutting-edge technology and able to guarantee final Quality in an even more competitive and demanding sector.

MISSION

Production: High precision

EREDI BAITELLI SpA can produce items according to drawing, as per customer's specification, ranging from **0,5 mm to 37 mm (0.0197 inches to 1.46 inches)** in diameter and in different type of materials such as brass, free-cutting steel, aluminium and steel.

Many are the application fields:

PRODUCTION

Quality guarantee:
target 100%

QUALITY

EREDI BAITELLI SpA has built up the necessary resources over time, in terms of people and equipment, and above all, an organization guaranteeing efficient use of those resources.

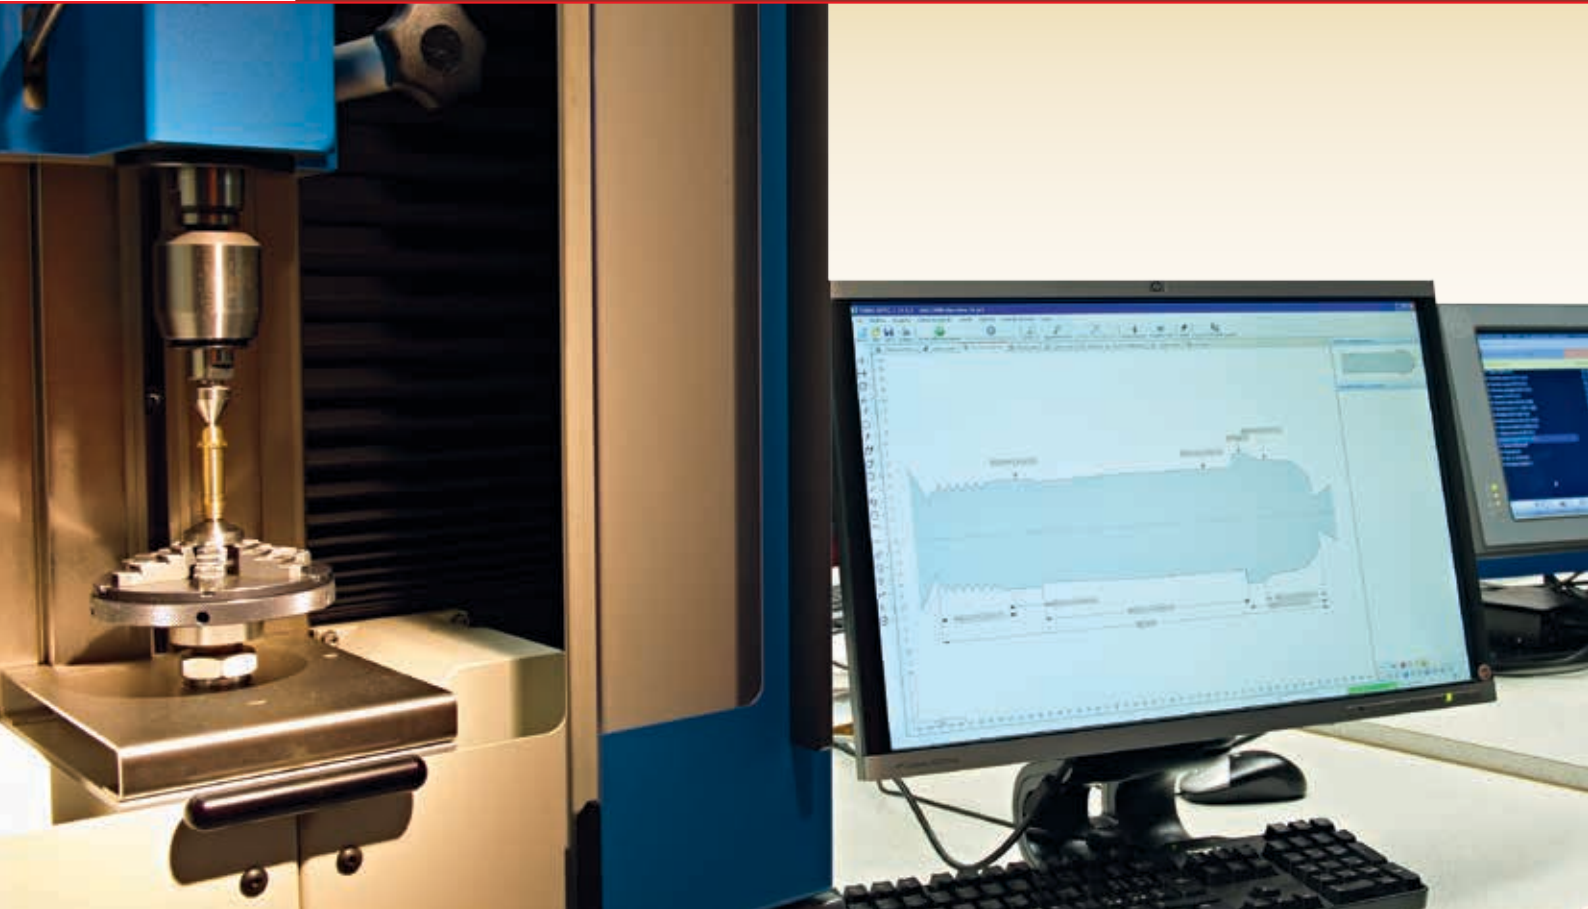

This whole system creates the only recognised value: **Quality**.

Certification of the company quality system **UNI EN ISO:9001** was not only a valuable recognition, but also a starting point for the **continuous improvement** as well as for the achievement of the world-wide success the company is working for.

Certification ISO 9001 obtained on the 08/03/2000.

Services: customized solutions

Always convinced that the excellence of a company comes from its ability to partner Clients in finding customized solutions, **EREDI BAITELLI SpA** provides a range of services such as:

- 100% quality control
- technical consultancy and thus product optimization
- safety stock
- traceability
- various packaging types
- maximum delivery flexibility
- various surface treatments

The environment: a well-respected companion

Along with productivity, quality and efficiency, our environmental policy is a vital element of our company Mission; tough measures have therefore been taken in order **to prevent or reduce any negative effects on the environment** and to limit the use of non-renewable resources: **atmospheric pollution controls, fume emission systems, energy consumption, noise pollution and waste management.**
