

A person's hand is pointing at a large digital screen. The screen displays a dashboard with several data visualizations. In the top left, there is a calendar grid showing dates from 12 to 27. In the top center, there is a semi-circular gauge with a needle pointing to approximately 25, with a label 'Bättre möten' below it. In the top right, there is a radar chart with five axes labeled 'Skapande', 'Kommunikation', 'Strukturer', 'Metoder', and 'Måttbara resultat'. Below the gauge, there is a list of items with icons: 'Utmärkning tävling' (ANTAL 10 000), 'Förslags uppföljning' (KAIZEN), and 'Uppdatering styrning' (A.D. 2). To the right of this list, there is another column of items: 'Utvärderas påmöte' (GRAD 100 FÖRSLAG), 'B334 6 månaders kartövl' (MÅN 100), and 'Boka APT!' (DÅ). On the far right, there is a section titled 'Introduktion nyansökt' (DÅ 100) and 'Bok pump' (MÅ 100000).

MEVISIO

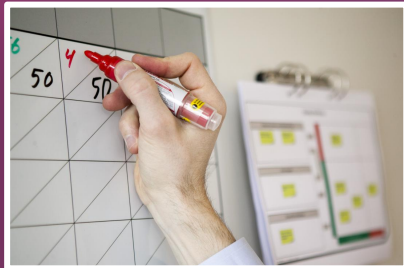

The digital platform for visualization and teamwork

A part of management megatrends Lean and Industry 4.0

"We must deal quickly with the fusion of the online world and the world of industrial production. In Germany, we call it Industrie 4.0."

// Angela Merkel, Chancellor of Germany

"Lean is one of the biggest management ideas of the past 50 years."

// McKinsey & Company

Digital daily management

- Online & real time
- Cloud access
- Touch interface
- User friendly
- Flexible
- Visual

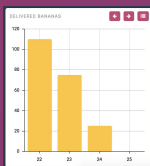

The modules are the building blocks of the boards

28 different module types to choose from. Each module can be customized with configuration.

Examples of live boards

The boards are used on a daily basis:

- Operators
- Technicians
- Engineers
- Sales representatives
- Administrators
- Nurses
- Doctors
- Supervisors
- Managers

Daily management at an automotive industry company

Features

- 4 organization levels, with consolidation of data to top management
- Indicators for safety, environment, quality and deliveries day by day
- Integration with production system for automatic import of production data

Benefits

- Better data quality
- Faster daily management
- Less administration
- More time for improvements
