# neewee

Transformative Intelligence.

The future has problems.
## The present has the solutions.

Manage both with advanced analytics and AI.

Neewee is an industrial analytics company that brings predictability to cost, delivery and quality in manufacturing operations. Our predictive technology solution, Bodhee, combines the best of advanced analytics, machine learning and IoT to predict risks, enhance visibility across processes and manage manufacturing complexity.

THE FUTURE HAS PROBLEMS. THE PRESENT HAS THE SOLUTIONS.
Manage both with advanced analytics and AI.

- Process builder for rapid creation of digital twins
- Prediction models with early warning system
- Industry-specific manufacturing simulations

The end-to-end capabilities and highly customisable features of Bodhee optimize the manufacturing function, providing real-time insights, increasing production efficiency and reducing manufacturing cost.

TECHNOLOGIES OF TOMORROW. SOLUTIONS FOR TODAY.
