PACKHUNT.io

Revolutionize sales and production efficiency by design automation

Packhunt.io is a next generation online SaaS platform that facilitates digital processes for everything from sales, design, product configuration, personalisation and customisation, Digital Twins, AR, VR to digital engineering and manufacturing based on modular parametric technology.

- Make your customers fall in love with your product by online or in store 3D virtual replicas.

- Business agility: Experiment with your customer journey through our modular configuration.

- Save the investment of programming: Build your own digital experience through modelling.

- Create the ultimate customer buying experience through customisation, recommendation and virtual try-on.

360° Experience is everything when selling: Boost the sales of your product by providing your customer with the ultimate customer experience through 3D realistic visualisation and a digital journey.

The convenience of selling everywhere: Packhunt.io is fully web-based which means you can connect to our platform from anywhere in the world on virtually any device with an internet connection.
