

## Research and development

All Al-Cu System products have been specifically conceived and designed by a skilled team of engineers constantly engaged in the research and development of new solutions that are subsequently tested and verified in our own laboratories.

## Innovation

Innovation is what sets us apart from other competitors. We offer innovative products as well as a wide choice of accessories designed to make electrical panels wiring quicker and more cost-effective.

## Service

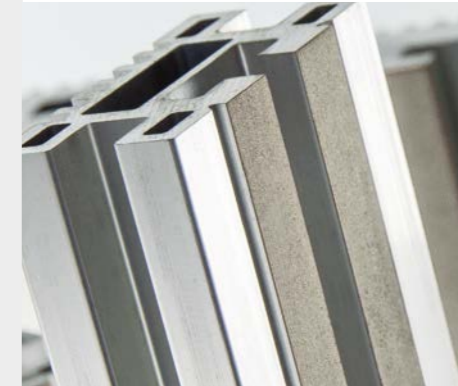

We take care of a comprehensive range of products conceived to meet any wiring requirement; our fully-stocked 6000 m<sup>2</sup> warehouse allows us to provide our customers with quality and prompt, highly competitive delivery times.

## Certifications

All AL-CU System products have been tested and certified by CESI Institute/IPH Berlin.

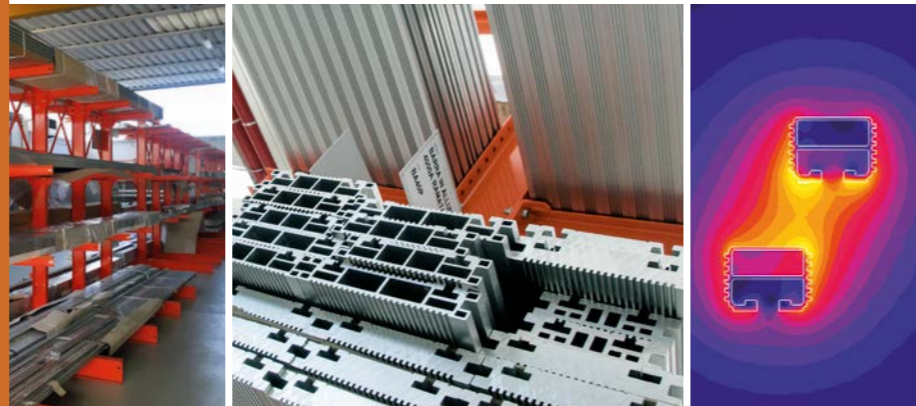

Innovative solutions for low voltage power distribution

## SMART ENERGY-BASIC

UNIVERSAL  
**ALUMINIUM**  
BUSBAR SYSTEM  
UP TO 1250A

INCLINED BUSBAR  
HOLDERS

BACK BASIC  
BUSBAR HOLDERS

SMART-ENERGY BASIC  
PROFILES  
UP TO 1250A

## SMART ENERGY-PLUS

UNIVERSAL  
**ALUMINIUM**  
BUSBAR SYSTEM  
UP TO 6300A

LINEAR BUSBAR  
HOLDERS

BACK PLUS  
BUSBAR HOLDERS

SMART-ENERGY PLUS  
PROFILES  
UP TO 6300A

## SMART ENERGY-COPPER

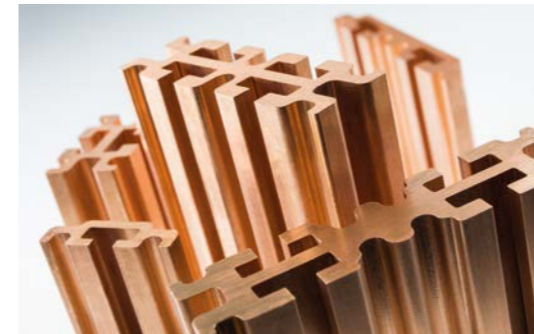

UNIVERSAL  
**COPPER**  
BUSBAR SYSTEM  
UP TO 6300A

LINEAR BUSBAR  
HOLDERS

BACK COPPER  
BUSBAR HOLDERS

SMART-ENERGY COPPER  
PROFILES  
UP TO 6300A

## ACCESSORIES SMART-ENERGY BASIC, PLUS, COPPER

A COMPLETE RANGE OF ACCESSORIES DEVELOPED  
TO MAKE WIRING EASIER AND FASTER.

- BUSBAR HOLDERS FOR PLAIN COPPER BARS
- PLAIN COPPER BARS
- FLEXIBLE INSULATED COPPER CONDUCTORS
- POLYCARBONATE STIFFENERS
- BRACKETS FOR TERMINALS EXTENSION
- HEXAGONAL SUPPORTS
- VERTICAL BUSBAR SYSTEMS UP TO 630A
- ALUMINIUM AND COPPER EARTH BARS
