

iN<sup>2</sup>POWER

# THE WIRELESS CHARGING PLATFORM

**iN<sup>2</sup>POWER** offers a platform for inductive power transfer products focused on the automated material handling market, next to a variety of applications within the domains of the Industry 4.0.

# iN.CHARGE

- **iN.CHARGE** is a wireless inductive charging platform for – among others – opportunity charging of Automated Guided Vehicles (AGV's).
- **iN.CHARGE** products allow different types of AGV's to co-exist perfectly and share the same infrastructure.
- **iN.CHARGE** products also work with a wide variety of battery technologies.

HIGHEST POWER DENSITY ON THE MARKET

EXTREME EFFICIENT BATTERY CHARGING AT LOW COST

EFFICIENCY > 95 %

INCREASED OPERATING TIMES

REDUCED INVESTMENT

INCREASED FLEXIBILITY

# BATT<sup>2</sup>RY

**BATT<sup>2</sup>RY** offers a compact solution for charging batteries to batteries with extreme high efficiency. Typical applications are AGV on AGV, robot on AGV, remote power (balancing) needs, ...

EFFICIENCY > 98,5 %

EASY TO INTEGRATE

LONG LIFE TIME

20A CONTINUOUS CHARGING

30A PEAK CHARGING
