

USE AND MAINTENANCE MANUALS AND TECHNICAL TRANSLATIONS

We produce **TECHNICAL DOCUMENTATION** totally compliant with the European Standards. We create all the documents with professional page layout programs and we supply them in a digital format (Acrobat Reader®) to allow their fast exchange and an immediate publication on your website.

Moreover we are specialized in **TECHNICAL TRANSLATIONS INTO ALL LANGUAGE**. Our translators are very experienced in your sector: they have therefore an advanced linguistic proficiency and a deep knowledge in the technical and scientific fields.

The documents that we produce and translate are:

- Use and maintenance manuals (in compliance with the Machinery Directive 2006/42/EC)
- Spare parts catalogues
- Assembly, service and workshop manuals
- Software manuals
- Technical booklets
- Risk analysis
- Validation protocols IQ – OQ – PQ – CSV
- Websites

Every kind of documentation can be completed by:

- CAD drawings also with rendering
- Three-dimensions and animated exploded views

and special printing services:

- Black and white or color multi-format digital printing of the documentation (up to A3+ format)
- Plates, stickers and signs with safety symbols, logos and colour writings on VYNIL and PVC

We have already produced instruction manuals for:

Packaging and handling machines
Textile and shoe machines
Woodworking machines
Building machines
Machine tools / Agricultural machines
Food machines

Machines for cosmetic and pharmaceutical industry
Machines for mechanical and plastics industry
Machines for chemical and electronic industry
Softwares
Household appliances / Furniture
Luminaires
