One stop solution for fixed firefighting system

# One stop solution for fixed firefighting systems

SAPIN SRL is the largest Italian Manufacturer of fire hoses and one of the leading producers in Europe. Our plant, situated in the greater Milan area, is provided with circular looms, a rubber lining department and the fitting mounting area. All those features enables our company to have a fully on site production that guarantee a perfect control on each production step.

Due to our important and direct cooperation with others complementary Italian and European manufacturers, personally selected from the point of view of quality, we have best prices and a complete range of fire hydrants, nozzles, reels, fire valves, special cabinets, portable foam equipment and all the accessories for fire protection plants to fulfill any requirement of the market, following international standards such as BS, UNI, DSP, STORZ, NH and GOST and for a custom made production.
