

BRAND Inserts 2in1

Genuine innovation for cell culture

High flexibility – to be used as a hanging or standing insert

cellGrade™ plus treated membranes for improved cell attachment and growth

Easy to use and efficient in your cell culture lab

NEW!

BRAND Inserts 2in1 – genuine innovation

■ Flexible

Keep using the multiwell plates or dishes you already use in your cell culture lab – and work with the advantage of a combined hanging and standing insert when using the BRAND Insert 2in1.

When used as a hanging insert, the insert fits nearly all multiwell plates. For bigger wells and culture dishes, simply use the same insert as a standing insert.

■ Functional

The cellGrade™ plus surface of the membranes ensures excellent cell attachment and growth. The highly transparent membranes give you good visibility of your cell cultures, and the high pore density contributes to good permeability.

■ Easy to use and efficient

Innovative packaging provides for efficient unpacking and reduces waste.

Easy-to-use packaging:

① Simply open the entire blister by pulling the sealing paper in one diagonal move (lilac arrow).

② A perforation in the sealing paper also allows to open only one line of inserts and leave the others securely sealed (blue arrow).

BRAND Insert 2in1 is available for 6-, 12- and 24-well sizes and in two pore sizes (0.4 µm and 8.0 µm) with PC-membrane or PET-membrane.

Individually packed in single blisters or in a plate-style blister.
