CUSTOMIZED SERVICE

FLEXIBLE ORDER PROCESSING

Each order is unique and we are used to complex requirements. In order to respond to various requirements in the best possible way, inquiries are processed individually.

INDIVIDUAL PACK SIZES

Not only do we offer a variety of different products, but also a whole range of different pack sizes. In addition to our standard container sizes, we also deliver our goods in the desired pack sizes on demand.

EXPERIENCED AND RELIABLE

Our years of experience in the (bio-)chemical industry are reflected not only in the production and processing of orders but also in the cooperation with customers, partners and suppliers. Our product specialists will be happy to assist!

~~~~~  
*We pursue the goal of offering  
our customers the best possible  
service and benefits!*

about

WHAT WE DO

PRODUCT LINES

neoFroxx is the manufacturer of two different product lines, BioFroxx and Labochem. BioFroxx products include biochemicals, media, and reagents for Life Science applications. The Labochem portfolio covers the classic chemical fields.

PRODUCTION

At neoFroxx, we produce high-quality chemicals and reagents for research and production. Our main product categories include buffers, detergents, electrophoresis reagents, enzyme substrates, media and supplements for cell culture and microbiology, molecular biology reagents as well as lab chemicals for analysis, HPLC and technical applications.

BOTTLING

Precise bottling and/or aliquoting of our products are performed by skilled professionals with state-of-the-art equipment in sterile conditions if necessary.

LABELING

Durable first-class materials are used for neoFroxx product labels. Each label is applied with a lot of care and high precision.

QUALITY CONTROL

Every product goes through strict quality control procedures according to our ISO 9001:2015-compliant quality management system in order to guarantee the superior and consistent performance of our products.

PACKAGING

Products are packed in different glass or PE container sizes according to the needs and convenience of our customers. Only high-quality screw-cap bottles and tubes are used. Light sensitive reagents are packed into amber bottles and cans to avoid their damage.

LOGISTICS

Our logistics are optimized frequently to offer the most economical, efficient and eco-friendly solution possible for each product and client. Orders are sent out within three to five business days, using the most suitable courier service and packaging according to the requirements.

DISTRIBUTION

neoFroxx has a growing worldwide network of dedicated distributors who share our high standards of service and technical support. In addition, neoFroxx exclusively distributes the products of Biological Industries and HiMedia Laboratories in Germany and some other countries.

company profile

NUMBERS AND FACTS

- X Founded in 2014
- X 85 experienced employees in production, offices, and sales
- X 1.800 m² production plant in Einhausen, Germany
- X 18.000 m² production plant in Chrudim, Czech Republic
- X 9.500.000 € turnover in 2018
- X More than 32.000 products

WHO IS WHO AT NEOFROXX

SUSANNE FRASCH (QUALITY MANAGER)

- X professional education (MTA) at the University of Heidelberg
- X worked at the German Cancer Research Center (Prof. W. Franke) and Center of Molecular Biology (Prof. A. Nordheim)
- X was Product Manager for cell biology products at AppliChem GmbH
- X was Head of Quality Management at AppliChem GmbH (2006-2010)
- X went back to Frankfurt University, as Lab Manager (2010)
- X returned to AppliChem GmbH by the end of 2011. Until 2013 she was responsible for Marketing and Int. Sales
- X founded BioFroxx GmbH in 2014 and has been head of the company until end of 2016

 ☎ +49 (6251) 989 24 - 22
 📠 +49 (173) 219 12 76

DR. MARKUS FRASCH (CEO)

- X studied chemistry in Heidelberg
- X wrote his PhD thesis about disulfenes (Prof. W. Sundermeyer) at the department of inorganic chemistry at Heidelberg University
- X joined AppliChem GmbH as CEO (1993)
- X AppliChem GmbH was sold to Illinois Tool Works (2012) but he stayed CEO until 2013
- X was appointed Chairman of BioFroxx GmbH (2015)
- X since end of 2016 CEO of neoFroxx GmbH (formerly BioFroxx GmbH)

management

DR. WOLFGANG SIPOS (CHAIRMAN)

- X studied chemistry and microbiology in Heidelberg
- X wrote his PhD thesis about radical cyclisations (Prof. Weinges) at Heidelberg University
- X joined Wella AG in Darmstadt, where he was responsible for sourcing of new raw materials (1988)
- X was head of purchasing at Boehringer Mannheim / Roche Diagnostics (1998-2001)
- X managed the Business Development Department at AppliChem GmbH (until 2011) and was Director Corporate Development under the new ownership
- X was appointed Chairman of neoFroxx GmbH (2016)
- X successfully founded other companies and is an investor in several start-ups

BioFroxx

Biochemicals for your daily experiments: the BioFroxx line covers biochemicals, reagents, and media for all fields in Life Sciences, such as protein biochemistry, molecular biology, microbiology, and classic animal tissue culture.

The product portfolio includes:

- ✕ microbiological media
- ✕ cell culture media
- ✕ biological buffers
- ✕ DNase/RNase-free reagents for molecular biology
- ✕ amino acids
- ✕ reagents for electrophoresis
- ✕ protease inhibitors
- ✕ enzyme substrates

our brands

Labochem[®]
international

The Labochem product line offers high-value lab chemicals for analytical applications, synthesis, and production.

The portfolio includes (all in different grades - technical, p.A., for HPLC, pure, pharma grade) among others:

- ✕ solvents
- ✕ acids
- ✕ bases
- ✕ volumetric solutions
- ✕ buffer standard solutions
- ✕ salts

COOPERATION OF NEOFROXX AND HIMEDIA LABS

HiMedia Laboratories Pvt. Ltd. India and neoFroxx GmbH have a very good business relationship for several years now. After deciding that there is a need for a european central warehouse, HiMedia Laboratories GmbH (also called HiMedia Europe; HME) was founded in 2017 and established its warehouse at the premises of neoFroxx.

HiMedia Laboratories GmbH stocks 1000+ products for all european distributors and can deliver what is in stock within 1-2 days.

neoFroxx is the exclusive distribution partner of HiMedia Laboratories and offers their complete product range in Germany!

NEW!

Life Science at your doorstep !

*Obtain the complete HiMedia product range
from the new european warehouse!*

*With a presence in more than
140 countries, HiMedia is
amongst the top three brands
in microbiology in the world!*

ABOUT HIMEDIA

HiMedia possesses excellent hi-tech expertise for manufacturing a complete range of standard microbiological, chromogenic and HiVeg™ media. They also offer advanced products in the fields of Animal Cell Culture, Plant Tissue Culture, and Molecular Biology.

Their excellent chemical testing facility equipped with the latest analytical instruments enables them to deliver consistent ultra-pure products.

With firm commitment to excellence in work culture and products, HiMedia has its own in-house bulk raw materials manufacturing plant. This enables HiMedia to deliver consistent quality products that conform to ISO 9001:2015 and ISO 13485:2012 as well as WHO:GMP

PRODUCTS AND SERVICES

HiMedia Laboratories has been committed for over 42 years to provide optimal and innovative solutions for microbiology, cell culture and molecular biology. Their portfolio of products and services includes:

MICROBIOLOGY

- X Standard dehydrated microbiological media
- X Broadest spectrum of chromogenic media worldwide
- X Granulated media
- X Media produced with vegetable peptones
- X Antimicrobial susceptibility tests
- X Differentiation aids
- X Peptone production facilities
- X Customized media production

LIFE SCIENCE

- X Animal cell culture media and reagents (powder and liquid)
- X Customized cell culture media in large quantities
- X Cell Culture grade hydrolysates
- X Plant tissue culture media
- X Molecular biology
- X Teaching kits
- X Chemicals

HiMedia - The most trusted manufacturer from India for serving a complete range of BioScience products over the last 42+ years!

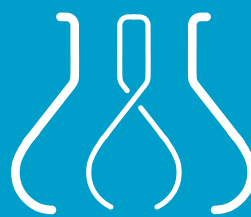

EXCLUSIVELY
IN GERMANY

ABOUT

Biological Industries (BI) is one of the world's leading and trusted suppliers to the life sciences industry. With over 30 years' experience in cell culture media development and manufacturing, they have supplied products to and collaborated with many of the industries leading academic institutes and biotechnology companies.

BI is committed to a Culture of Excellence through their advanced manufacturing and quality-control systems, superior regulatory expertise, in-depth market knowledge, and extensive technical customer-support, training, and R&D capabilities.

Their manufacturing facility is an ISO 9001:2015 and ISO 13485:2003 certified facility and their controlled environment clean rooms are graded from ISO 8 up to ISO 5 (classified from class 100,000 to 100).

Biological Industries
Culture of Excellence

PRODUCTS AND SERVICES

STEM CELL MEDIA (SERUM-FREE AND/OR XENO-FREE)

- X for hESCs and hiPS cells (isolation, expansion)
- X for hMSCs (isolation, expansion and differentiation)
- X cryopreservation media
- X auxiliary reagents

CLASSICAL MEDIA AND REAGENTS

- X sera (FBS, bovine sera, other sera)
- X powdered media
- X reagents and supplements

SERUM-FREE, XENO-FREE OR CHEMICALLY DEFINED MEDIA AND REAGENTS

- X for vero cells, hybridomas, CHO cells, insect cells, mononuclear cells, endothelial cells etc.
- X auxiliary solutions
- X cryopreservation media

PRODUCTS FOR HUMAN CYTOGENETICS

- X for prenatal diagnostics
- X for peripheral blood diagnostics
- X for bone marrow diagnostics
- X karyotyping reagents

OTHERS

- X mycoplasma detection, treatment, prevention
- X disinfection reagents for water baths, incubators, surfaces and equipment
- X cytokines and growth factors
- X custom services (e.g. contract manufacturing, custom formulations)

WE CARE FOR YOU!

neoFroxx is your **reliable partner with expertise and experience** in producing, distributing and handling all sorts of chemicals. We're not only **highly flexible** when it comes to pack sizes, we also take care of proper packaging materials and work with the best courier services to make sure our products arrive at your destination safely and as fast as possible!

The tireless strive for improvement in every aspect of our work is secured by our first-class quality management (according to **ISO 9001:2015**).

Outstanding service and **high-quality products** don't need to be overpriced. We always work closely with our customers to offer the **best prices** possible.

Go with the best...
...take the **FROXX**
