**We are your partner for:**  
ready-to-use substrates  
protein stabilizers  
antibody production  
customized research  
in vitro diagnostics

**Y Seramun**  
Diagnostica GmbH

Certified Quality  
EN ISO 13485

## Raw Materials / Reagents

### SUBSTRATES

ELISA  
Microarray  
Membrane  
Chip  
Chemiluminescence

### STABILIZERS

Conjugates  
Standards  
Controls  
Proteins  
Antibodies

### FURTHER REAGENTS

Buffer solutions  
Block solutions  
Conjugates

## Raw Materials / Proteins

### ANTIBODIES

Purified by affinity chromatography  
Conjugates

### ANTIGENS

Bacterial  
Viral  
Human

# Services

## ANTIBODIES

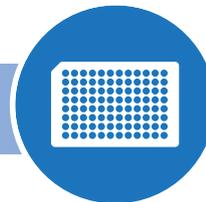

Production  
Purification  
Labelling

## ANTIGENS

Recombinant  
Native  
Peptide synthesis

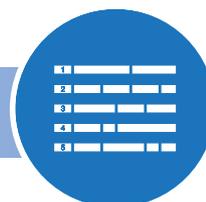

## ASSAY DEVELOPMENT

# IVD / HCP Assays

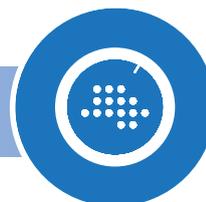

Infectious diseases  
Gastrointestinal infectious diseases\*  
Gastrointestinal autoimmune diseases  
Systemic autoimmune diseases  
Rheumatic diseases  
Antiphospholipid syndrome  
Human proteins and antibodies  
Host Cell Protein Detection

# Blot and Line-Immunoassay

Infectious diseases  
Autoimmune diseases

# Spot-Immunoassay

Infectious diseases\*  
Autoimmune diseases\*

\* External distribution by Competent sales partners.

# Discover the Marvels

For over 25 years Seramun has been leading in the development and production of IVD diagnostics in the field of reagents, raw materials and assays. Seramun is your competent partner when it comes to offer high-quality products meeting special requirements within shortest time and in continual availability.

It is our philosophy that all key substances for the immunoassays, that we offer, are developed in-house and produced according to standardized procedures.

Via strong customer ties and close co-operation with scientific institutions Seramun is able to provide state of the art product innovations.
