Our Team

We are considered by many customers the ideal partner for planning, developing and manufacturing the machinery involved in their most important projects. For this task, we count with an extraordinary staff with many years of experience which has been enriched project by project. At this present time, we are able to customize the individual demands of any customer, always using our own processes, technology and "Know-How". There are over 2600 companies that are using our coating, printing, drying, profile wrapping, laminating, post-forming and sanding equipments, knowing the advantages that Barberan can offer as an innovative, creative and flexible manufacturer. In our facilities in Castelldefels, engineers mechanics, technicians and professionals in the accounting, sales and logistics departments- make possible the present worldwide leading position of our company.

International Presence

More than 80% of our production is manufactured for export and Barberán S.A. is represented in the five continents, as a leading manufacturer of surface finishing equipment. We exhibit our manufacturing programme in more than 20 world-wide exhibitions each year, such as Ligna, Xylexpo, Fimma, IWF etc.

XYLEXPO (MILAN-Italy)

LIGNA (HANNOVER-Germany)

FIMMA (VALENCIA-Spain)

Research & Development

In the past years, we have given full dedication to the research and development of new technologies, in order to offer reliability, quality and operation flexibility to our customers.

As a part of our constant effort for research and development of new technologies, we have a lab and test room, for each branch where our customers can makes trials with their materials in a fully industrial environment.

Proceso de fabricación

Today, we are leading manufacturers of machinery for profile wrapping, coating, laminating and gluing. We have the necessary technical knowledge to develop and manufacture automatic high production lines according to customer's requirements.

Wrapping machine assembling section.

Coating machinery assembling section.

Laminating machinery assembling section.

We adapt to your needs

We are able to reply quickly to all the requests of the customers, meeting their demands. We have all the necessary equipment to enable us to manufacture all necessary items by ourselves.

To achieve this, all the manufacturing procedures go through accurate controls. Raw material purchasing, production, product installation and after-sales service are according to the ISO 9001:2008 quality standards.

After Sales Service

As a customer of Barberan, you will get the best service for your machine. Our policy is very simple: "The quality of our service department has to be at the same level as the quality of the machine we deliver".

Our technical department has been trained to resolve any doubt about the machine that you purchased at Barberan. In the maintenance operations, our customers only use original parts and accessories from Barberan so that a perfect operation of our equipment is assured.
