

**WOOD** MAGAZINE'S CHOICE  
Best Overall  
ROUTER BITS  
Magazine

**CMT** The Perfect 10!  
Rated the #1 Overall Router Bits

**Superior High-Strength Steel**

We use high-quality, solid bar stock sourced from Switzerland, which provides exceptional resistance to fatigue and abrasion.

**Anti-Kickback Design**

Controls depth of cut and minimizes the chance of kickback, reducing your risk of injury.

**Sinterhip Hi-Density Industrial Chrome Carbide™**

New process called SinterHIP (Hot Isostatic Pressing), helps prevent material failure and increases cutting life.

**Tri-Metal Brazing**

Our Silver-Copper-Silver brazing protects the carbide tip when cutting harder wood or wood composites and reduces the chance of failed welds.

**Non-Stick Orange Shield Coating™**

Prevents bit from heating up, reduces pitch build-up, protects against corrosion and provides a longer bit life.

**Multi-Axis Grinding creates a 3X Longer Lasting Mirror Finish**

Each cutting edge is precisely sharpened to the micron, in order to produce a cutting angle, which is razor sharp, yet extremely durable.
