

MULTIPLE SAW TRIMMER

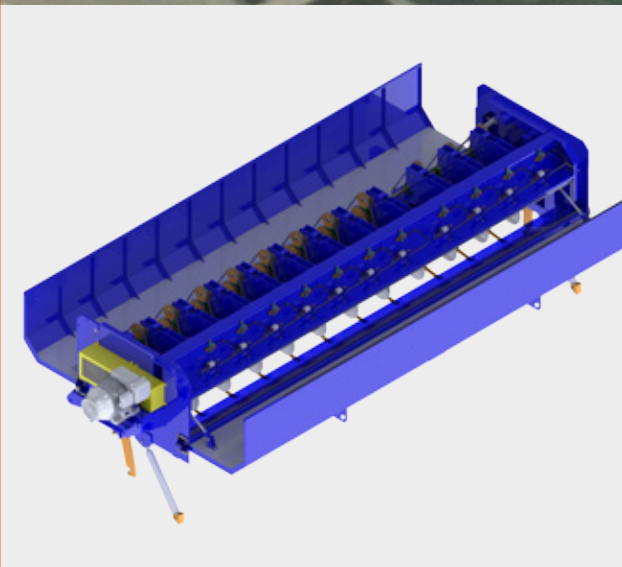

CLEAN AND SAFE OPERATIONS

We offer two configurations:

- Lineshaft (common shaft);
- Multimotor (with one electric motor for each blade).

Advantages

- Machined face structure & saw modules;
- Fast & efficient for lumber of all dimensions;
- Exclusive patented support wheel:
 - Support wheel offers better board control in the trimmer and also prevents flying blocks during operation;
 - Support wheel allows high speed, precision cutting;
- The Carbotech trimmer is equipped with two different access points for easy maintenance:
 - Opening with integrated walkways;
 - Clamshell-style opening for secure maintenance.
- Mobile saw units that adapt to any cutting pattern;
- Ultra rugged construction;
- Low maintenance requirements;
- Adapts to your specific needs;
- Patented design of the saw module for multimotor configuration.

THINK TOUGH,
THINK CARBOTECH
