

A PERFECT **FZK** CUTTER NOW EVEN MORE PERFECT AS **FZK HP**

PERFECT JOINTING QUALITY
INCREASED TOOL LIFE

LONGLIFE FZK HP has been improved with special surface coating which significantly increases life of the tool, even several times, depending on the kind of the machined material.

Cutter **FZK-11N HP**

cat. no.	D	B	d	z	k
FZK11NS160-001HP	160	28,6	50	2+2 HSS	10/11x38 HP
FZK11NS250-001HP	250	28,6	50	3+3 HSS	10/11x38 HP

Cutter **FZK-12N HP**

FZK12NS160-001HP	160	28,6	50	2+2 HSS	10/10x38 HP
FZK12NS250-001HP	250	28,6	50	3+3 HSS	10/10x38 HP

Construction changes in the technological process and blade geometry of the FZK cutters allowed to obtain perfect jointing quality and increased tool life. Quality and life of the blade has been considerably increased by using high quality fast-cutting steel and proper heat treatment which resulted in optimal blade hardness as well as proper small grain steel structure and impact resistance.
